

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

THOMAS W. MASON,
EUGENE C. BEDDINGFIELD.

HENRY C. BROWN, CLERK.

STATE OF NORTH CAROLINA.

OFFICE OF THE BOARD OF RAILROAD COMMISSIONERS.

RALEIGH, December 31, 1893.

To His Excellency ELIAS CARR,
Governor of North Carolina.

SIR:—We have the honor to submit to your Excellency our third annual report.

Since our first report of December 31, 1891, 165 $\frac{1}{2}$ miles of new road have been completed and put in operation, and are now assessed for taxation. Of this 114 $\frac{1}{2}$ miles were completed last year and 50 $\frac{1}{2}$ miles this year, before the 30th of June, the end of the fiscal year. The report of the Interstate Commerce Commission will show that in this respect North Carolina leads every State in the Union. The falling off in mileage of new roads constructed this year is due partly to the fact that the greater part of North Carolina is now supplied with railroad facilities, and partly because of the panic in financial circles which has distressed our people so much this year, and which certainly has fallen as heavily upon railroads and manufactures as upon any other class of business. In spite of these circumstances the construction of new roads and the improvement of those already in operation goes steadily on. One or two small roads built temporarily to move lumber and naval stores have been either removed to a better locality or abandoned as the timber was used up; in one case, that of the Jamesville and Washington Road, had been allowed to get in such a condition that the public safety required that its road-bed be improved. An order was given by the Commission that the necessary repairs should be made for the security and accommodation of the public. The company, however, taking advantage of an act passed by the Legislature granting power to abandon a portion of its line, did abandon that portion from Cherry's Station to Jamesville, and has agreed to put the remainder in good shape.

ASSESSMENTS.

The assessment of railroad property this year is practically the same per mile as last year. Although there has been a gradual improvement in road-beds and rolling stock on the principal lines, the franchise has been less valuable owing to the exceedingly dull season through which they have just passed. It is true that the valuation on some lines has been increased and on others lowered, but there has been no general alteration.

The total assessment for 1890 was	\$12,321,704.00
The total assessment for 1891 was	18,423,298.28
The total assessment for 1892 was	19,726,760.56
The total assessment for 1893 was	24,228,954 69

A total increase since the establishment of a Railroad Commission of \$11,907,250.69, and nearly double the assessment of 1890. This is an increased revenue of more than \$30,000 per year in State taxes alone, and including State, county and municipal taxes, more than \$100,000.

EXEMPTIONS FROM TAXATION.

Several roads in the State have always, by reason of the provisions of their charters from the Legislature, enjoyed either partial or entire exemption from taxation. This fact, as your Excellency is well aware, has been a source of continued dissatisfaction and strife. The railroads that had no such advantages felt that they were not fairly treated by the State; and the people complained that it was unjust to the taxpayers of the State for any class of property (other than that used for religious or benevolent purposes) to be exempt from taxation. Your Excellency is cognizant of the efforts made by the Executive Department as well as the Railroad Commission to get rid of these exemptions. The Raleigh and Gaston Railroad was the first to surrender its chartered rights to exemption from taxation. This was effected during the administration of your Excellency's predecessor, Gov. Holt, by a compromise, pending a suit brought by the State Treasurer to recover certain back taxes on the Seaboard and Roanoke, another division of the same system. Since our last report the Wilmington and Weldon Railroad has also surrendered its claims to exemption both from taxation and from the regulation of its tariff rates by the Railroad Commission.

This too was brought about by a compromise during the last session of the Legislature, with which your Excellency and the public are familiar. Under its old charter the Wilmington and Weldon Railroad was allowed to charge a much higher freight rate than the Commission's Standard Tariff on distances over thirty miles, but on very short distances it was restricted to mere nominal rates—lower than any other road in the State has ever used. By the compromise above mentioned the Wilmington and Weldon Railroad accepted a new charter from the Legislature which put it on an equal footing with the other roads in the State, both as to taxation and regulation by the Railroad Commission. The Standard Tariff established by the Commission became at once applicable to that road, and while it *lowered* the rate on long distances in some cases very materially, it *raised* the rate on very short distances. This has caused some complaint especially from persons who ship ten miles and under, and who did not understand why the increase was made. The Commission, however, felt that after its exemptions were surrendered the Wilmington and Weldon Railroad ought to be treated exactly as the other large systems of the State and that any other course would be unjust. For a more complete explanation of this matter we respectfully refer your Excellency to the cases reported on pages 545 and 550 of this report.

The State should be congratulated upon the fact that your Excellency, first of its distinguished line of Governors, has taken the bold yet just view that all corporations should equally share the burden of taxation. And by your efforts the North Carolina Railroad will, in 1894, be placed upon the tax list as other roads. Every species of property within the borders of this commonwealth now shares equally the burden of taxation.

DEPOT IMPROVEMENTS.

By order of the Commission depots have been built or improved for the accommodation of the public at the following places: Wilson, Burlington, Vaughan, Mebane, Marion, Pineville, Bladenboro, Everitt's, Elmwood, Gastonia, Newell, New Garden, Tarboro, Whittier and Lemon Springs, Williamston. Several others will be built or repaired in the Spring.

COMPLAINTS AND DECISIONS.

Since our last report ninety-two complaints have been brought before the Commission. It is but due the railroad companies to state that in

many instances they have corrected the causes of complaint as soon as notice was served on them and the matter brought to their attention, and in most cases they have shown a readiness to furnish information and comply with our wishes, that has made our labors lighter and more pleasant and satisfactory. A full list of the decisions made since our last report as well as orders and circulars issued appear herewith, together with a full statement of the transactions of our office. Any suggestions as to the amendment of the Commission Act will best be made in our report for 1894, when we will also call attention to the opinions of the Supreme Court in the cases which have been carried to that Court by appeal from the decisions of the Railroad Commission.

With appreciation of courtesies shown, this report is

Respectfully submitted,

J. W. WILSON, *Chairman* ;

T. W. MASON,

E. C. BEDDINGFIELD,

Commissioners.

WILMINGTON AND WELDON RAILROAD COMPANY.

HISTORY.

The Wilmington and Weldon Railroad Company was organized March 14, 1836, under the laws of North Carolina, Acts of General Assembly 1833-'35-'36 (amendatory Acts 1851-'2-'5-'67).

January, 1833, chartered as Wilmington and Raleigh Railroad Company; main line opened March 9, 1840 Name changed in February, 1855.

Tarboro Branch opened in August, 1849, and Scotland Neck Branch October 1, 1882.

Midland North Carolina Railroad was purchased in June, 1885.

The Fayetteville Branch was completed and opened October 1, 1886.

The Nashville Branch was opened in 1887.

The Clinton Branch on April 1, 1887.

Washington Branch was opened in 1892.

This Corporation was chartered as the Wilmington and Raleigh Railroad, by the General Assembly of North Carolina, year 1833, for the purpose of effecting a communication by a railroad from some point within the town of Wilmington, or immediate neighborhood of the said town, to the city of Raleigh, or in the immediate neighborhood of the said city.

The charter was amended in 1835, so as to allow the Company to run its main road from some point within or near the town of Wilmington, to some point in the city of Raleigh, or in the immediate neighborhood thereof, or to some point at or near the river Roanoke, at the election of the Stockholders, with a view of connecting with the Petersburg and Norfolk Railroads.

Exemption from taxation surrendered at session General Assembly 1893.

ALBEMARLE AND RALEIGH RAILROAD COMPANY.

HISTORY.

The Albemarle and Raleigh Railroad Company was organized December 22, 1873, under laws State of North Carolina, as Seaboard and Raleigh Railroad Company; amended February 16, 1874, January 30, 1883, and name changed to Albemarle and Raleigh Railroad Company, February 7, 1883.

The purpose of this company was to construct and operate a railway from some point at or near the City of Raleigh, to some point on the Roanoke river, in the county of Martin, with authority to purchase the Williamston and Tarboro Railroad, with all its rights, franchises privileges and immunities.

CHERAW AND DARLINGTON RAILROAD,
INCLUDING CHERAW AND SALISBURY RAILROAD COMPANY.

HISTORY.

Chartered in 1857 for a term of ninety-nine years, by Act ratified the 2d day of February, 1857.
The Cheraw and Salisbury Railroad Company was organized in December, 1857, under laws of South Carolina and North Carolina; amended December, 1861, and December, 1868; name changed by latter amendment; originally Cheraw and Coal Fields.

Road opened in 1880.

By Act ratified 16th day of December, 1868, changing the name of said corporation, it was allowed five years from said 16th day of December, 1868, to complete its road to the crossing of the Wilmington, Charlotte and Rutherford Railroad (now the Carolina Central), and five additional years thereto to complete the extension authorized by said Act, to such point on the North Carolina Railroad at or near Salisbury as might be selected by said Company.

The Ordinance of the State Convention, ratified the 10th day of March, 1862, provided that the Cheraw and Coal Fields Railroad Company should complete its road to the Coal Fields, in Chatham County, within five years after the close of the war, or forfeit its charter.

NORFOLK AND CAROLINA RAILROAD COMPANY.

HISTORY.

The Western Branch Railway Company was chartered by the General Assembly of Virginia February 19, 1886, and the Chowan and Southern Railroad Company was chartered in North Carolina, March 7, 1887, and January 21, 1889, and in Virginia, May, 5, 1887, and January 27, 1888. The main line of the road was completed in the latter part of 1889; road opened April 1, 1890. On February 14, 1899, the name was changed to the Norfolk and Carolina Railroad Company. This company was chartered for the purpose of constructing a railway between Tunis Landing on the Chowan river through the counties of Hertford and Bertie, to some point on the Roanoke river in the county of Bertie, with the privilege of extending its line on the south or west of Roanoke river to any point on the Tar or Neuse rivers, and northwardly to the county of Gates to any point on the Virginia State line.

PETERSBURG RAILROAD COMPANY.

HISTORY.

The Petersburg Railroad Company was organized 1830, under laws of Virginia and North Carolina.

Original charter granted by Act of the General Assembly of the State of Virginia, passed February 10, 1830, and by the General Assembly of the State of North Carolina at its session of 1830. Amendatory Acts were passed by the Legislature of Virginia as follows: 1830, 1831, 1832, 1833, 1834, 1836, 1840 and 1843.

The charter expired by limitation in 1891. A renewal of the same was granted by the Legislature for two years, by Act ratified the 9th day of March, 1891. The Legislature refused to renew for a longer period than two years, because the Wilmington and Weldon Railroad Company claims exemption from taxation, not only for its main line, but for its branch roads as well, and had, in the meantime, become the owner by lease of the Petersburg Road. This right of exemption from taxation was not acquiesced in by the Legislature, and suits are now pending to subject the branch roads to taxation. In the meantime the Legislature, for these reasons, thought it wise to renew the charter for only a short period.

DURHAM AND NORTHERN RAILWAY COMPANY.

HISTORY.

The Durham and Northern Railway Company was organized August 20, 1887, under the laws of the State of North Carolina, Acts February 2, 1887. It is largely owned by the Raleigh and Gaston Railroad Company, and forms part of the Seaboard Air Line System. The road was opened April 1, 1889.

The purpose of this Company was to construct and operate a road between Durham and some point in Wake, Franklin or Vance counties, to be determined by the present directors, with the privilege of extending the road to tide-water or Roanoke river, and with power to build branch roads not exceeding 25 miles in length, and with authority to consolidate with other railroad companies incorporated under the laws of this or any other State.

RALEIGH AND AUGUSTA AIR LINE RAILROAD.

HISTORY.

The Raleigh and Augusta Air Line Railroad Company was organized April, 1861, as Chatham Railroad Company (name changed under Act December 18, 1871) under laws of North Carolina, Acts February 15, 1861, February 10, 1862, February 5, 1863, March, 1868, August 3, 1868, August 15, 1868, September 17, 1868, December 18, 1868, April 10, 1869, December 13, 1871.

Main line completed September 13, 1877; is controlled by the Raleigh and Gaston Railroad Company.

No limitation as to duration of corporate powers in the original Act ratified the 15th day of February, 1861.

The Chatham Railroad Company was chartered 1855, for the purpose of effecting railroad communication between Deep River at or near the coal fields in the county of Chatham and the city of Raleigh, or some point on the North Carolina Railroad west of the city of Raleigh, with a capital stock of \$800,000.

Pittsboro Railroad; a branch of the Raleigh and Augusta Air Line; Moncure to Pittsboro, twelve miles. Chartered in 1886, and road built and opened in same year. Leased to the Raleigh and Augusta Air Line Railroad Company, which practically owns the road.

RALEIGH AND GASTON RAILROAD COMPANY.

HISTORY.

The Raleigh and Gaston Railroad Company was organized in the year 1836, under the laws of North Carolina, Acts of December, 1835, and January 6, 1845.

Reorganized September 11, 1851.

The road was opened from Raleigh to Gaston in 1844, and extended to Weldon in 1852. The company owns a controlling interest in the Raleigh and Augusta Air Line Railroad, and a large interest in the Durham and Northern Railroad, also the Carolina Central Railroad and the Georgia, Carolina and Northern Railroad.

Charter expires ninety years from December, 1835. It was amended in 1839, '43, '45, '47, '49, '51, '52, '55, '61 ('66 ordinance of convention), '67. In 1871 the section requiring the officers to reside in North Carolina was repealed.

Surrendered its exemption from taxation, 1893.

SEABOARD AND ROANOKE RAILROAD COMPANY.

HISTORY.

The Seaboard and Roanoke Railroad Company was organized July 5, 1847, under the laws of the State of Virginia, Act passed March 10, 1847.

United with the Roanoke Railroad Company, under Act passed February 1, 1848, by Virginia Assembly, and January 29, 1849, by North Carolina Assembly, Act to incorporate the Roanoke Railroad Company, ratified January 15, 1847. The former name of the company was Portsmouth and Roanoke Railroad Company, reorganized under Acts of Virginia, March 8, 1832.

The company has a large interest in the Carolina Central, the Raleigh and Gaston, the Raleigh and Augusta Air Line, Georgia, Carolina and Northern, the Pittsboro and the Carthage Railroads.

The corporate powers of this company were granted for sixty years from the passage of the Act creating the Portsmouth and Roanoke Railroad Company, passed at the session of 1832.

This corporation was chartered for the purpose of making a railroad from the town of Portsmouth in the State of Virginia to some point on the Roanoke river to be selected by the company.

ATLANTA AND CHARLOTTE AIR LINE RAILWAY.

HISTORY.

Georgia Air Line Railroad, chartered March 5, 1858, by the Legislature of Georgia, to run from Atlanta, in the State of Georgia, to the South Carolina State line. Amendment to the same approved December 11, 1858, and also September 7, 1868, and September 21, 1868.

South Carolina Air Line Railroad Company, charter granted December 20, 1856, conferring on it the same power as was granted to the Georgia Air Line Railroad Company, to run from the Georgia State line to the North Carolina State line. Amendment to the same approved September 18, 1868.

The North Carolina Air Line Railroad Company, charter granted August 3, 1838, to run from the South Carolina State line to such point on the Charlotte and South Carolina Railroad, or the North Carolina Railroad at the town of Charlotte, as shall be meet and practicable.

These roads form what was called the Atlanta and Richmond Air Line Company, which went into the hands of a receiver, and by authority contained in deed of trust, dated 1st day of July, 1870, they were sold at public auction on the 5th day of December. Reorganized April 4, 1877, under the name of the Atlanta and Charlotte Air Line Railway Company.

On the 26th of March, 1881, the road was leased to the Richmond and Danville Railway Company for ninety-nine years, from April 1, 1881, at a rental of \$162,500 annually.

PROPERTY LEASED OR OTHERWISE ASSIGNED FOR OPERATION.

Atlanta and Charlotte Air Line, operated by the Richmond and Danville Railroad Company, under agreement dated March 28, 1881, under which the Richmond and Danville Railroad Company took possession of the works, property and assets of the Atlanta and Charlotte Air Line Railway Company, and assumed all its liabilities then outstanding, agreeing to pay annually all taxes, assessments, public dues and charges legally levied upon said Air Line Company; interest upon the first mortgage bonds of said Company in semi-annual installments of \$148,750; interest on the first mortgage preference and income bonds of said Company in semi-annual installments of \$40,000; dividend of five per cent. on \$1,700,000 capital stock of said company in semi-annual installments of \$42,500, said dividend to be increased to six per cent. in event of the earnings of the Air Line exceeding \$1,500,000, and to seven per cent. in the event of earnings exceeding \$2,500,000; for maintaining the organization of the Atlanta and Charlotte Air Line Company, the sum of \$3,000 for the first year, and of \$2,000 for each succeeding year, said sums to be paid in semi-annual installments of \$1,500 and \$1,000 respectively. Also such sum annually as may be necessary to cover the charges of some responsible Trust Company in the City of New York for disbursing the payments for interest on the bonds and dividends as the stock of the Air Line Company and for registering and transferring said bonds and stock. Also to make certain betterments to the property of the Air Line Company, for the cost of which betterments the Richmond and Danville Company was to receive the bonds or stock of the latter Company, said agreement to continue until default by the Richmond and Danville Railroad Company in carrying out any of the provisions of the same, in event of which default the said agreement is terminable at the option of the Air-Line Company, on thirty days notice to the Richmond and Danville Railroad Company, provided such default should still continue at the expiration of that time.

ATLANTIC, TENNESSEE AND OHIO RAILROAD COMPANY.

HISTORY.

The Atlantic, Tennessee and Ohio Railroad was completed in 1860. In 1863 the rails were taken up and used for the Piedmont Railroad. Relaid June 22, 1871. Leased for ninety-nine years from October 1, 1881, to the Charlotte, Columbia and Augusta Railroad Company. This lease assigned to the Richmond and Danville Railroad Company.

This company was chartered by the General Assembly, ratified the 5th day of February, 1855, for the purpose of establishing communication between the waters of the Atlantic and Ohio river through the States of North Carolina, Tennessee and Kentucky, an Act for like purpose having been passed by the General Assembly of the State of Tennessee on the 26th day of February, 1852.

No limitation as to duration of its charter is expressed in the act.

CHARLOTTE, COLUMBIA AND AUGUSTA RAILROAD.

HISTORY.

The Charlotte, Columbia and Augusta Railroad, with its leased lines (Atlantic, Tennessee and Ohio Railroad, and Chester and Lenoir Narrow-gauge Railroad), is leased to the Richmond and Danville Railroad Company for a term of ninety-nine years, from May, 1886.

The original purpose of the Act incorporating the Charlotte and South Carolina Railroad Company was to establish a communication by rail between the town of Charlotte, North Carolina, and some point on the South Carolina Railroad in the State of South Carolina, with a capital stock of \$1,500,000. This corporation was exempt from taxation for a period of fifteen years from January 2, 1847—the day on which the Act of Incorporation was ratified. It was allowed to increase its capital stock to \$2,000,000, by an Act to produce conformity in the charters granted to the Charlotte and South Carolina Railroad Company, by the States of North and South Carolina, ratified January 29, 1849.

The Charlotte and South Carolina Railroad Company and the Columbia and Augusta Railroad Company met in Columbia, S. C., severally, on the 7th and 8th of July, 1869, and in joint session on July 8th, 1869, and perfected the consolidation as authorized. The Charlotte and South Carolina Railroad Company was chartered in South Carolina on the 8th of December, 1848, and in the State of North Carolina, January 2, 1847. The Columbia and Hamburg Railroad Company was chartered in South Carolina December 21, 1858, and its name was changed to Columbia and Augusta Railroad Company December 17, 1863. Act authorizing the consolidation of the Charlotte and South Carolina Railroad Company and the Columbia and Augusta Railroad Company under the name of the Charlotte, Columbia and Augusta Railroad Company, was approved March 19, 1869. (S. C. Statutes 16, page 232.)

CHESTER AND LENOIR RAILROAD.

HISTORY.

The Carolina Narrow-Gauge Railroad Company was chartered by State of North Carolina 1872, and organized August 27, 1872. The Chester and Lenoir Narrow-Gauge Railroad Company was chartered by State of South Carolina February 26, 1873, and by charter authorized to consolidate with the Carolina Narrow-Gauge Railroad Company and the Kings Mountain Railroad Company, chartered by the State of South Carolina December 19, 1848. Chester and Lenoir Narrow-Gauge and the Carolina Narrow-Gauge Railroads were consolidated May 14, 1873. Chester and Lenoir Narrow-Gauge and Kings Mountain Railroad Company were consolidated April 3, 1874. The road was opened to Lenoir June 2, 1884. Chester and Lenoir Railroad Company chartered February 26, 1873, and opened to Lincolnton, North Carolina—sixty-three miles—in 1880.

By these acts of consolidation, communication by rail was established between Lenoir, in Caldwell County, via Hickory and Newton on the Western Railroad, to Lincolnton. A third rail is laid between Newton and Hickory, over the Western North Carolina Railroad, for the accommodation of narrow-gauge equipment.

PROPERTY LEASED OR OTHERWISE ASSIGNED FOR OPERATION.

Chester and Lenoir Railroad Company leased to the Charlotte, Columbia and Augusta Railroad Company, under deed of lease dated September 22, 1882, for a term of ninety-nine years; the lease guaranteeing a dividend of one and one-half per centum per annum on the stock of the lessor company, and assuming all outstanding indebtedness; also agreeing to extend the road to Lenoir within eighteen months after ratification of the lease by the stockholders of the lessor company. The lessee was also authorized to issue bonds, to be secured by a mortgage on the road, the proceeds to be used in improving the property. This lease assigned to the Richmond and Danville Railroad Company, under the deed of lease from the Charlotte, Columbia and Augusta Railroad Company to the Richmond and Danville Railroad Company, bearing date May 1, 1886, and continuing ninety-nine years thereafter.

HIGH POINT, RANDLEMAN, ASHEBORO AND SOUTHERN RAILROAD COMPANY.

HISTORY.

The High Point, Randleman, Asheboro and Southern Railroad Company was organized December 8, 1888, under the laws of North Carolina, Acts 1887. The road was opened to Asheboro, N. C., 1889. The road is operated by the Richmond and Danville Railroad Company.

This company was chartered as the High Point and Randleman Railroad Company by the General Assembly in 1883, for the purpose of effecting a railroad communication between the towns of High Point and Asheboro. Its charter was amended by an Act of the General Assembly, ratified the 26th day of February, 1887, and the name of the company changed to its present name.

PROPERTY OPERATED.

High Point, Randleman, Asheboro and Southern—from High Point, N. C., to Asheboro, N. C., 27.81 miles.

PROPERTY LEASED, OR OTHERWISE ASSIGNED FOR OPERATION.

High Point, Randleman, Asheboro and Southern Railroad Company leased to the Richmond and Danville Railroad Company for ninety-nine years from May 14, 1890; High Point Company leases all of its property of every description, privileges and franchises for a term of ninety-nine years; also any property that it may hereafter control; also any incomes, demands, claims, accounts due the High Point Company; Danville Company have sole and exclusive right to occupy such leased road and property; Danville Company to maintain property in good order as it now is, acts of God, public enemy excepted; Danville Company to collect and receive all revenues, tolls, etc., and to apply same as follows:

1. To the payment of maintaining cost and expenses of operating and maintaining said road and property.

2. To the payment of \$500 per annum for maintaining corporate organization of the High Point, Randleman, Asheboro and Southern Railroad Company.

3. To payment of interest on first mortgage bonds of High Point Company, not to exceed \$15,000 per mile, said bonds due and payable in gold coin April 1, 1939, and interest on same at 6 per cent., payable semi-annually in gold coin on the 1st day of April and October in each year.

4. Any and all residues of such receipts and income after above payments to be paid over to the High Point Company.

High Point Company to co-operate with the Danville Company in extending mortgage bonds if deemed necessary.

In case net or surplus receipts or revenues are not sufficient to wholly meet and discharge demands referred to above, the Danville Company, at its option, can advance necessary amount to make up such deficiency; such amounts to become a mortgage lien on the property, subject to the first mortgage bonds referred to above.

NORTH-WESTERN NORTH CAROLINA RAILROAD COMPANY.

HISTORY.

The North-Western North Carolina Railroad Company was chartered under the laws of North Carolina. Ordinance to incorporate, Ordinance 17, page 37; Act to confirm ordinance and charter, Private Laws, 1868, chapter 9, page 10; charter amended, Acts 1871-'72, chapter 25; Acts 1881, chapter 162. Road opened to Winston (Salem), 26 miles, in March, 1873. Extended westward seven miles in 1888; to Donaha early in 1889, and to Wilkesboro in 1890. The road is virtually owned by the Richmond and Danville Railroad Company.

The purpose of this company, as declared in the original Act of incorporation, ratified by the Convention on the 9th day of March, 1868, was to construct a railroad from some point on the North Carolina Railroad between the towns of Greensboro and Lexington, running by way of Salem and Winston to some point on the north-western boundary line of the State, to be determined afterwards. It was allowed to have a capital stock of \$2,000,000, and a corporate existence of 99 years. The charter was ratified and confirmed by Act of the General Assembly, passed 11th day of August, A. D. 1868, and the privileges of the company were afterwards enlarged by the Act of the Assembly, ratified the 2d day of March, 1881, allowing it to extend and construct its road from Winston through the counties of Forsyth, Davidson, Yadkin, Davie, Rowan and Iredell, or any of them, to Statesville, or some other point on the Western North Carolina Railroad, and to build and operate branches thereto.

PROPERTY OPERATED.

North-Western North Carolina—from Greensboro, N. C., to Wilkesboro, N. C., 100.15 miles.

PROPERTY LEASED.

North-Western North Carolina Railroad leased to the Richmond and Danville Railroad Company for 99 years, from July 24, 1880. North-Western Company leases to the Danville Company all its property of every description now owned or which may hereafter be owned, including all corporate rights, privileges and franchises, tolls, rents, revenues, etc., North-Western Company reserving and retaining so much of its corporate franchises, rights and privileges as are necessary to maintain its corporate organization; Danville Company to have sole right to occupy, use and enjoy such leased road; Danville Company to maintain right of road, rolling stock and property in as good condition as same are now in, acts of God and public enemy excepted; Danville Company to apply the whole of the receipts, income and revenues as follows:

1. To payment of current cost and expenses of maintaining, operating said road or property, all taxes, etc.

2. To payment of \$500 per annum for maintenance of corporate organization of North-Western North Carolina Railroad Company.

3. The payment of interest on first mortgage bonds of the North-Western Company, amounting to \$5,000, bearing interest at 6 per cent. per annum, payable in gold coin semi-annually, on the first days of October and April in each year, and principal payable on the first day of April, 1938.

4. Any and all residue after above payments to be paid over to the North-Western Company; North-Western Company to co-operate with the Danville Company to extend bonds if deemed necessary.

In case net or surplus receipts or revenues are not sufficient to pay all expenses and interest on first mortgage bonds, Danville Company shall make up such deficiency, amounts thus applied to be a mortgage lien on the property, subject only to the first mortgage bonds referred to above.

DANVILLE AND WESTERN RAILROAD COMPANY.

HISTORY.

Only one mile in North Carolina; operated by the Richmond & Danville Railroad Company.

STATE UNIVERSITY RAILROAD.

HISTORY.

Date of organization, April 12, 1879.

The State University Railroad was opened from University Station, on the North Carolina Railroad, to Chapel Hill in 1881. Built partly by contributions from the Richmond and Danville Railroad Company, which owns a majority of its stock. Leased to the Richmond and Danville Railroad Company under agreement dated August 1, 1881.

This company was first chartered as the Chapel Hill Iron Mountain Railroad Company by Act of the General Assembly, ratified the 10th day of February, 1873. Afterwards amended by Act of the General Assembly, ratified 4th day of March, 1879, and name changed to its present name. No limitation expressed in Act of incorporation as to duration of its charter.

PROPERTY OPERATED.

Statesville and Western Railroad—From Statesville, N. C., to Taylorsville, N. C.; 20.36 miles.

PROPERTY LEASED.

Lease of Statesville and Western Railroad to Richmond and Danville Company, dated October 27, 1888.

Statesville Company leases, demises and farms out all its property of every description for ninety-nine years to the Danville Company; Statesville Company reserving its corporate franchises and privileges; the lease to be forfeited if Danville Company does not keep terms of agreement; Danville Company to maintain property in good condition, revenue of company to be applied as follows:

1. Payment of costs and expenses of maintaining and repairing said road, all taxes, insurance, etc.
2. Danville Company to pay \$500 per annum for maintaining corporate organization of Statesville Company.
3. The payment of interest on first mortgage bonds bearing date July 1, 1887, amounting to \$300,000, bearing six per cent. interest, payable January and July, principal being payable in gold coin July, 1937.
4. Any residue of said receipts and income to be paid to the Statesville Company; Statesville Company to co-operate with Danville Company to extend said mortgage if desired. In case any surplus revenue derived from the earnings of said road are not sufficient to pay expenses and interest on bonded indebtedness, Danville Company can supply same, which will act as a mortgage lien subject only to the first mortgage. Statesville Company shall not have any right or power to build any additions or branches without written assent of the Danville Company.

NORTH CAROLINA RAILROAD COMPANY.

HISTORY.

The North Carolina Railroad Company was chartered January 27, 1849; road opened January 30, 1856. Leased (September 11, 1871) to Richmond and Danville Railroad Company for thirty years from October, 1871, at a rental of \$260,000 a year. The road runs from Goldsboro to Charlotte, 223 15-100 miles. Three-fourths of the stock is owned by the State of North Carolina, one-fourth by citizens of the State. The road-bed, by its charter, is exempt from taxation.

This company was chartered for the purpose of effecting a railroad communication between the Wilmington and Weldon Railroad where the same passes over the Neuse river, in the county of Wayne, and the town of Charlotte, with a capital stock of \$3,000,000. The line of the road was to be via Raleigh and thence via Salisbury to Charlotte. The act provided that whenever one-third of the capital stock should be subscribed for and taken by other parties, that the State should subscribe for and take the remaining two-thirds.

PIEDMONT RAILROAD.

HISTORY.

Piedmont Railroad, chartered in States of North Carolina and Virginia in March, 1862. Road leased to and virtually owned by the Richmond and Danville Railroad Company. Leased to the Richmond and Danville Railroad Company for a term of eighty-six years from February 20, 1874.

This company was chartered by an ordinance of the State Convention, ratified 8th day of February, 1862, which was amended by an Act of the Assembly, ratified 1st day of February, 1866.

This company was chartered for the purpose of constructing a railroad from the North Carolina Railroad to the Richmond and Danville Railroad in Virginia, by the most direct and practicable route, with a capital stock of \$1,500,000, divided into shares of \$100 each.

PROPERTY OPERATED.

Piedmont Railroad, from Danville, Virginia, to Greensboro, North Carolina, 48.4 miles.
Leased to Richmond and Danville System.

PROPERTY LEASED.

Piedmont Railroad, from Danville, Virginia, to Greensboro, North Carolina, 48.4 miles.

The Piedmont Railroad Company, under date of February 20, 1872, granted, leased and delivered to the Richmond and Danville Railroad Company its entire road, with rolling stock, materials and equipment of every description, for full term of seven years from that date, to hold the same as fully and completely and to the same extent, and in all respects, as if vested in and held by the Danville Railroad Company; Richmond and Danville Railroad Company to pay annual rental of \$60,000 in semi annual installments on the 20th days of August and February in each year. Said deed of lease contained clause which subjected it at any time to modification or rescission by mutual agreement of the two companies. Said companies modified said lease; the Piedmont Railroad Company granting the Richmond and Danville Railroad Company right to use its property, rights and franchises for a term of eighty-six years from and after the 20th day of February, 1874, Richmond and Danville Railroad Company to keep the property in same good condition as at present. If Danville Company defaults in payment of rental for one year, Piedmont Company shall have the right to terminate agreement at end of sixty days. When lease was made as a deed of trust on property and works of the Piedmont Railroad Company, the Danville Company agreed to secure said bonds to prevent sale of property under foreclosure; the Danville Company agreeing to buy the bonds and hold the same for its protection. Danville Company has a right to transfer and assign this lease.

WESTERN NORTH CAROLINA RAILROAD COMPANY.**HISTORY.**

The Western North Carolina Railroad was chartered February 15, 1855. Road opened to Old Fort in 1869; to Swannanoa in 1879; to Asheville Junction in 1880; to Paint Rock, State line, and a connection with the East Tennessee, Virginia and Georgia Railroad January 28, 1882. The Ducktown branch was opened to Nantahala River October 1, 1884, and to Jarrett's in 1887. Road extended to Tomotta during 1890. Road completed to Murphy in 1891.

The State's interest in this road was sold to W. J. Best and associates, under act of the General Assembly, at special session, year 1880, the State receiving in payment therefor \$600,000, being the amount of disbursements on account of said road, and purchasers to assume a mortgage debt of \$850,000, together with all floating indebtedness of the road, and also entering in contract to complete the road to Paint Rock and Murphy by a certain stipulated time.

The road was subsequently transferred by W. J. Best, assigns and associates, to T. M. Logan, W. P. Clyde and A. S. Buford, representing the Richmond and West Point Terminal Company.

The road was subsequently leased to the Richmond and Danville Railroad Company for a term of 99 years. The purpose of this incorporation was to effect a communication between the North Carolina road and the Mississippi Valley. This object has now been accomplished.

No time was fixed in the act for the expiration of its corporate powers.

ABERDEEN AND ROCK FISH RAILROAD COMPANY.

HISTORY.

Organized July, 1893, under laws of the State of North Carolina, act of the General Assembly 1893. This company was chartered for the purpose of constructing a road from Aberdeen, N. C., to Fayetteville, N. C.

OFFICERS.

President—John Blue.....Aberdeen, N. C.
Secretary—N. S. BlueAberdeen, N. C.
Nine miles have been completed through the countles of Moore and Cumberland.

ATLANTIC AND NORTH CAROLINA RAILROAD COMPANY.

HISTORY.

Chartered in 1853; road opened in 1858

The purpose of the act of incorporation was to effect a railroad communication from the Atlantic through the center of the State to meet the Tennessee line from the most eligible point on the harbor of Beaufort, thence near Newbern, Trenton and Kinston, so as to strike the Wilmington and Weldon Railroad and to connect with the North Carolina Railroad at Goldsboro, with a capital stock of nine hundred thousand dollars.

In order to further effectuate this purpose, the same act incorporated the North Carolina and Western Railroad Company, with a capital of \$3,000,000, to commence on the North Carolina Railroad at or near the town of Salisbury, thence the most practicable route across the Blue Ridge to the Tennessee line, and provided that when these two companies should be formed in compliance with the conditions of the act, they should have a corporate existence as a body politic for the term of ninety-nine years.

This act of incorporation was amended by an act passed at the session of the Legislature 1854-'55, providing that the company might at any time increase its capital to a sum sufficient to complete the road, and that whenever it should appear to the Board of Internal Improvements that one-third of the capital stock had been taken, by individuals or companies, and that \$300,000 of the same had been paid into the hands of the treasurer of the company, that the Board of Internal Improvements should be required to subscribe on behalf of the State to two-thirds of the capital stock of the company.

By virtue of this provision the State owns 12,636 shares of stock and controls the management of the road.

CAPE FEAR AND YADKIN VALLEY RAILWAY COMPANY.

HISTORY.

Organized April 2, 1879, under laws of the State of North Carolina, Act 25th February, 1879.

In the year 1833 a charter was obtained and the ground broken for the building of the Cape Fear, Yadkin and Pee Dee Railroad ; but it was met by many difficulties, and being regarded as a doubtful experiment, the work was abandoned.

The Western Railroad Company was chartered by the General Assembly of the State of North Carolina December 24, 1852, and the Mount Airy Railroad Company was chartered April 4, 1871 (amended February 28, 1877, also February 11, 1879), consolidated under the name of the Cape Fear and Yadkin Valley Railway Company by Act of the Assembly, and ratified the 25th day of February, 1879, amended the 26th day of March, 1880, and February 27, 1883.

The consolidation as above stated was effected in general meeting of the stockholders of the Western Railroad Company, held in Fayetteville, N. C., April 3, 1879.

Name of the original corporation, the Western Railroad Company, reorganized as the Cape Fear and Yadkin Valley Railroad Company, under Act of the General Assembly, February 27, 1883, and consolidated with the Mount Airy Railroad Company under the name of the Cape Fear and Yadkin Valley Railway Company, for the purpose of extension.

The road was built from Fayetteville to Egypt, forty-three miles, in 1860, and extended from Egypt to Gulf, four miles, in March, 1879. Road opened between Gulf and Greensboro, June 19, 1881; from Fayetteville south to Maxton, August 1, 1881, and through from Greensboro via Fayetteville to Bennettsville, S. C., including the leased South Carolina Pacific Railway, on December 5, 1881.

Road opened from Greensboro to State line December 15, 1881, and extended from Greensboro to Belew's Creek, and branch built from Factory Junction to Millboro in 1886. In 1887 the main line was extended from Belew's Creek to Pilot Mountain, and in 1888 from Pilot Mountain to Mount Airy. The Madison branch was opened in December, 1888. An extension of the main line from Fayetteville to Wilmington, eighty-two miles, was opened February 17, 1890. The road is graded four miles beyond Mount Airy to the State line, where a connection with the Norfolk and Western is proposed.

The corporate powers granted to this company by the Act of the General Assembly of the 24th day of December, 1852, were to continue until the year 1900.

By Acts of the General Assembly, sessions 1879 and 1883, the State surrendered its interest in the road to a company of private citizens, and furnished convicts for the completion of the road (and branches) to the Virginia State line.

PROPERTY LEASED.

South Carolina Pacific Railway Company, from South Carolina State line to Bennettsville, S. C., 10.50 miles. Leased to Cape Fear and Yadkin Valley Railway Company.

The South Carolina Pacific Railway Company extends from Bennettsville, South Carolina, to the State line between North and South Carolina, a distance of 10 $\frac{1}{4}$ miles, and owns no equipment. It is operated by the Cape Fear and Yadkin Valley Railway Company, under lease for thirty years from and after January, 1885. The annual rental paid by the Cape Fear and Yadkin Valley Railway Company is the interest upon the first mortgage bonds of the South Carolina Pacific Railway Company. The amount of said bonds is \$101,600, bearing interest at the rate of six per cent. per annum.

The Cape Fear and Yadkin Valley Railway Company also pays all taxes and other expenses and keeps the road in good order.

Under the contract for construction and equipment of the Cape Fear and Yadkin Valley Railway Company the North State Improvement Company receives \$5,000 per mile of road constructed and equipped, as follows:

CHARLESTON, CINCINNATI AND CHICAGO RAILROAD
COMPANY.

HISTORY.

This company was organized and chartered September 30, 1886, and succeeded to the rights of the Rutherfordton Railway Construction Company.

Total mileage in North Carolina, 64½ miles, through the counties of Cleveland, Rutherford and McDowell.

The present name and corporate existence of this company began with an Act of the General Assembly of South Carolina, ratified on the 22d day of December, 1885.

The Rutherfordton Railway Construction Company was organized under an Act of the General Assembly of North Carolina, ratified on the 6th day of February, 1883.

The Rutherfordton, Marion and Tennessee Railway Company was organized under an Act of the General Assembly of North Carolina, ratified on the 5th day of February, 1881.

These two last-named companies were allowed to consolidate with and merge into the Charleston, Cincinnati and Chicago Railroad Company by an Act of the General Assembly, ratified the 17th day of February, 1887.

The purpose of this Act was to make one continuous line and to extend the road into and across the State of North Carolina, and to enable it to be continued across the States of Tennessee, Virginia and Kentucky to the Ohio river.

Road now in the hands of a Receiver.

NORTH CAROLINA DIVISIONS:

Winston-Salem, N. C., to Roanoke, Virginia, 45.75 miles in North Carolina.

Durham, N. C., to Lynchburg, Virginia, 41.69 miles in North Carolina.

HISTORY.

The Lynchburg and Durham Railroad Company was organized under the laws of the States of North Carolina and Virginia, Acts February, 1857. The road succeeded to the rights of the Lynchburg, Halifax and North Carolina, the Roxboro, and the Durham and Roxboro Railroad Companies. Road completed from Lynchburg to Rustburg in 1888; to South Boston, Virginia, in 1889, and to Durham September 15, 1890.

Leased January, 1892, to the Norfolk and Western Railroad Company.

The Roanoke and Southern Railway Company was organized under laws of the States of North Carolina and Virginia, June 18, 1857, and succeeded to the rights of the Roanoke and Southern in North Carolina, and the Roanoke and Southern in Virginia.

The Roanoke and Southern Railway was constructed by the Virginia and North Carolina Construction Company, which company receives and still owns all the bonds and stocks issued. Equipment is furnished by the Virginia and North Carolina Construction Company.

This company was chartered by Act of the Assembly, ratified the 23d day of February, 1857, for the purpose of constructing a railroad and telegraph line from some point on the line of the States of North Carolina and Virginia, in the county of Rockingham, through the counties of Rockingham, Guilford, Stokes, Forsyth, Davidson, Davie, Iredell, Rowan, Catawba, Lincoln Mecklenburg, Gaston and Cleveland, or through any parts of either of said counties to the South Carolina line.

CIRCULARS.

CIRCULAR No. 24.]

FEBRUARY 18, 1893.

CHANGE IN COMMISSIONERS' CLASSIFICATION.

On and after the 15th day of February, 1893, the following changes in the Commissioners' Classification will be in effect:

Marble or granite tombstones or monuments, boxed or crated, valuation limited to 40 cents per cubic foot, freight prepaid at option of shipper or initial carrier: L. C. L. or C. L. released, 4th class.

By order of the Board:

H. C. BROWN, *Clerk.*

J. W. WILSON,

Chairman.

CIRCULAR No. 25.]

FEBRUARY 14, 1893.

JOINT TELEGRAPHIC RATES.

Whenever a message is sent over two or more telegraphic lines owned, controlled and operated by separate and distinct corporations or individuals, the joint rate shall not exceed forty cents for such message of ten body words or less, exclusive of date, address or signature, between any two points within the limits of this State, nor more than three cents for each additional word.

This circular to take effect March 1, 1893.

By order of the Board:

H. C. BROWN, *Clerk.*

J. W. WILSON,

Chairman.

CIRCULAR No. 26.]

APRIL 5, 1893.

The following rule is adopted by the Railroad Commission, to take effect on and after the 15th day of April, 1893, and to be added to the Rules Governing the Transportation of Passengers already adopted by the Commission:

"That all common carriers subject to the supervision of the Railroad Commission shall provide such means and appliances as may be necessary to secure the careful handling of and to prevent injury to any parcel of baggage to which a check may be affixed, as provided in Section 1970 of The Code.

"That at all minor stations, where no proper appliances are supplied, and no regular depot hand is employed, the train hands shall be required to assist the baggage-master, and lift with care all baggage from the car doors."

By order of the Board:

H. C. BROWN, *Clerk.*

J. W. WILSON,

Chairman.

CIRCULAR No. 27.]

JUNE 1, 1893.

The Commission having adjudged that the Norfolk and Carolina Railway Company and the Albemarle and Raleigh Railway Company, being under the management of one and the same Company, to-wit, The Wilmington and Weldon Railroad Company, fall under the provisions of Rule No. 1, of the "Rules Governing the Transportation of Freight," it is hereby ordered, that for purposes of transportation, said roads be considered as constituting one and the same road, and rates of transportation on the shipments of freights passing between the said roads or divisions shall be computed as parts of one and the same road.

By order of the Board:

H. C. BROWN, *Clerk.*

J. W. WILSON,

Chairman.

CIRCULAR No. 28.]

JULY 12, 1893.

OF THE
BOARD OF RAILROAD COMMISSIONERS.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS,

DICKINSON, *Complainant*,

v.

ATLANTIC AND NORTH CAROLINA RAILROAD COMPANY.

December 20, 1892.

The complainant in this case filed his petition on the 15th of October, 1892, alleging that he was running a boat line from Beaufort to Newbern, carrying freight, shipped thence to Northern markets; that the defendant was trying to induce the steamship lines at Newbern to charge the same for carrying freight from Newbern to Northern markets as charged by the defendant from Morehead City; that this would be a discrimination, and, if carried into effect, would destroy the plaintiff's business.

On the 24th of October following, the Commission addressed the following communication to the plaintiff:

"This is interstate, and this Commission has no jurisdiction in such cases. We can, however, if desired, approve same to the Interstate Commission. Should the rate referred to be put into effect you will please advise the Commission, and the same will have attention."

At a session of the Commission at Raleigh, December 20, 1892, the case was called for hearing, and it appearing that no answer had been received from complainant, and no further action required of the Commission, it was dismissed.

By order of the Board.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS,CAROLINA ROLLER MILLS, *Complainant*,

v.

WILMINGTON AND WELDON RAILROAD COMPANY.

December 20, 1892.

In this case complaint was filed on the 14th of September, 1892, alleging that the defendant company was guilty of discrimination in charging a greater rate on D class goods from Fayetteville to Florence, S. C., than from Wilmington to said Florence, although distance was greater between the two last named points.

The complaint was served on defendant, and answer thereto filed on October 18, in which the defendant called attention to the fact that shipments from Fayetteville to Florence passed over three separate roads, making the rate thereby greater, although the distance was less.

This case was called for hearing at a session of the Commission at Raleigh, December 20, 1892, and the facts appearing as alleged in the defendant's answer, and it further appearing that the rate complained of was on shipments going beyond the limits of the State, that no further action was demanded of the Commission, the case was dismissed.

By order of the Board.

v.

CAPE FEAR AND YADKIN VALLEY RAILWAY COMPANY.

December 20, 1892.

In this case complaint was filed October 7, 1892, in which plaintiff alleged that defendant had required more to be paid on consignment to complainant at Pilot Mountain than allowed by the tariff.

Complaint was served on defendant October 20, 1892, and answer thereto on October 27th following, promising investigation and redress of the grievance complained of.

Case was called for hearing at a session of the Commission at Raleigh, December 20, 1892, and it appearing that the defendant had paid to the plaintiff the damage and overcharge, and that no further investigation was needed, the case was dismissed.

By order of the Board.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS,

JUNALUSKA ALLIANCE, *Complainant*,

v.

RICHMOND AND DANVILLE RAILROAD COMPANY.

January 2, 1893.

This was a petition, filed June 14, 1892, by J. A. Bumgarner, President; J. H. Moody, Secretary, and J. W. Holcombe, Business Agent of the Junaluska Farmers' Alliance, asking that the defendant company be not allowed to discontinue its agency at Wilmot, a station on defendant's line.

The complaint was served and answer filed by A. B. Andrews, General Agent of the defendant, August 12, 1892. The case was held for investigation and correspondence filed. The following facts were found by the Commission:

That some time in the year 1888 the citizens of the neighborhood, by subscriptions of money and labor, built the station-house; that thereafter certain of the citizens, under a license from Superintendent Bridgers, removed said station to a point about a mile distant on defendant's line; that said removal was against the will of certain other citizens of the neighborhood; that on June 4, 1893, the defendant company posted the following notice at three public places near said station, in compliance with a rule of the Commission:

"RICHMOND AND DANVILLE RAILROAD COMPANY,
WESTERN NORTH CAROLINA DIVISION,
Office of the Superintendent.

NOTICE.

ASHEVILLE, N. C., June 4, 1892.

Notice is hereby given that application will be made to the North Carolina Board of Railroad Commissioners to discontinue the agency at Wilmot, N. C.

(Signed)

R. R. BRIDGERS,
Superintendent."

That a copy of said notice was filed with the Commission on the 5th of August following, and application to close the said agency by A. B. Andrews, General Agent of the defendant; that said Wilmot is situated four miles from Whittier station on one side, and six miles from Dillsboro on the other side, both of which are stations on defendant's line; that the receipts of said station are so small (not exceeding fifteen dollars per month) that they will not pay the expense of the agency.

The relief in this case was sought under the twenty-first section of the act creating the Railroad Commission: "A railroad corporation which has established and maintained for a year a passenger station or freight depot at a point on its road shall not abandon such station or depot, nor substantially diminish the accommodation furnished by the stopping of trains, except by consent of a majority of the Commission."

The Commissioners desire to exercise the authority conferred upon them by this section to promote the efficiency of the service rendered to the public by our railroad corporations. We feel assured, however, that if we should exercise this authority without care or in an arbitrary manner we would defeat the purpose in view. Corporations would be unwilling to grant agencies when desired by their patrons, if our action should assure them that such agencies could not be afterwards abandoned, even for cause shown. We desire to promote the building and improvement of station-houses and depot buildings whenever practicable, in order to advance the efficiency and comfort of the service rendered by our railroad corporations. It is important, in exercising the authority conferred on us to this end, that we should have the confidence of these corporations that it will not be exercised in demanding of them unreasonable requirements. From the facts appearing in this case, we are of the opinion that the petition of the defendant ought to be granted.

At a session of the Commission, held at Raleigh, January 2, 1893, it was adjudged that the Commissioners give their consent to the discontinuance of the agency at Wilmot. It is so ordered.

v.

RALEIGH AND AUGUSTA RAILROAD COMPANY.

January 20, 1893.

This was a complaint filed December 15, 1892, alleging an overcharge on a shipment of a car-load of lumber from Keyser to Charlotte by the defendant Company. The rate charged was \$21.60.

The complaint was served on the defendant and answer filed January 9, 1893, by O. V. Smith, Traffic Manager, from which it appeared that the defendant had corrected the overcharge and arranged rates with the complainants, which were satisfactory and in accordance with

the tariff prescribed by the Commission. At the same time a communication from the complainants was filed with the Commission affirming the facts stated in defendant's answer.

At a session of the Commission, held at Raleigh, January 20, 1893, the case was called for hearing, and it appearing that the relief asked had been granted, and that no further investigation was needed, was dismissed.

By order of the Board.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS,

CITIZENS OF SHEPHERD, *Complainants*,

v.

RICHMOND AND DANVILLE RAILROAD COMPANY.

February 2, 1893.

The defendant company in this case, having complied with the rule of the Commission by posting notices of its intended application to discontinue the station at Shepherd, on the line of the Atlantic, Tennessee and Ohio Railroad, filed its application with the Commissioners on the 15th of September, 1892.

The plaintiffs, who are citizens of Iredell County, residing in the neighborhood of said station, after reading said notices, filed their petition on the 30th of August, asking that the Commissioners refuse to give their consent to said application. From the pleadings, admissions and testimony in this case, it appears that the depot was built by the citizens and has been maintained with little expense to the company, the agent attending to the duties of the station without compensation; that the distance from Shepherd to Mooresville, on one side, is four miles, and to Troutman's, on the other side, is six miles, both stations on the A., T. & O. R. R.; that the said station had been maintained since the construction of the road. There was conflict as to the amount of business, but it appeared that it was not sufficient to justify the employment of an agent by the defendant.

The case was continued from session to session of the Commission that a full investigation might be made. At a session of the Commission at Raleigh, February 2, 1893, it was adjudged that the Commissioners refuse to give their consent to discontinue the station, but that they would consent that it might be made a flag station. It was so ordered.

By order of the Board.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS.I. W. DURHAM & Co., *Complainant*,

v.

RICHMOND AND DANVILLE RAILROAD COMPANY.

February 2, 1893.

This was a petition filed February 18, 1892, by the plaintiff and against the defendant company, asking that the classification of marble or granite tombstones or monuments be changed and lowered. The petition was served on the defendant March 16 following, and thereafter, on March 22, defendant answered, through its General Freight Agent, J. H. Drake, alleging that the classifications complained of had been agreed to by all of the Southern roads after a conference with large marble shippers, and that the same was thought to be as equitable as could be arranged.

The plaintiff appeared in person before the Commission, and the defendant company through its General Agent, A. B. Andrews. There was much correspondence with the plaintiff and defendant, and the case was continued from session to session of the Commission that it might have a full investigation. It appeared to the Commissioners that the classification ought to be changed, and yet they felt that it was dangerous to disturb a regulation that appeared to have been adopted with great care.

At a session of the Commission at Raleigh, February 2, 1893, the case was called for hearing. The Exception Sheet No. 29 of the Associated Railways of Virginia and the Carolinas, taking effect December 27, 1892, was filed in the cause as an exhibit. From this it appeared that the classification of marble or granite tombstones or monuments had been changed by the action of the Associated Railways of Virginia and the Carolinas, taking effect December 27, 1892, but that the change only applied between Charlotte and Wilmington, and points in South Carolina. No reason appeared why this change should not apply to the whole State. It was adjudged that the classification of marble or granite tombstones or monuments should be changed to the 4th Class, to take effect on and after the 15th day of February, 1893.

The Secretary of the Commission was directed to issue Circular No. 24, to give notice of this change.

No further relief having been asked or investigation needed, the case was dismissed.

By order of the Board.

THE NORFOLK AND CAROLINA RAILROAD COMPANY

TO

THE BOARD OF RAILROAD COMMISSIONERS.

March 2, 1893.

This was a petition filed by the Norfolk and Carolina Railroad Company on October 29, 1892, asking the consent of the Commissioners to change the station at Eure, on the petitioner's line, from a collect to a prepay station.

At a session of the Commission at Raleigh on December 8, 1892, it appearing that due notice of the petition had been given, and no objection or answer thereto had been made, the Commissioners granted the relief asked.

At a session at Raleigh, February 17, 1893, it appearing that a petition had been addressed by many citizens in the neighborhood of Eure to the Commissioners, asking that they do not give their consent to the petition of said company, and that said petition had been mailed to Richmond through error, the case was reopened and assigned for hearing at Raleigh on March 2 following; the parties having due notice thereof.

At a session of the Commission at Raleigh on March 2, 1893, the case was called for hearing. It was admitted by the company petitioning that the business at Eure amounted to about \$200 per month. It also appeared from the testimony of Mr. J. J. Gatling, who appeared as a witness, that the nearest station to Eure on one side was beyond the Chowan river, and that on the other side about seven miles distant. Mr. Gatling also testified that the change of the station from a collect to a prepay agency would be a great inconvenience and loss to the citizens of that community.

Whereupon, it is adjudged, and so ordered, that the consent of the Commissioners heretofore given to the Norfolk and Carolina Railroad Company to a change of the agency at Eure from a collect to a pre-pay station, be and the same is hereby withdrawn. It is further ordered by the Commissioners that the said agency at Eure be restored to a collect agency, as it was before said consent was given.

By order of the Board.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS,ORMOND, *Complainant*,

v.

RICHMOND AND DANVILLE RAILROAD COMPANY.

March 21, 1893.

The plaintiff filed his complaint December 2, 1892, in which he alleged that he bought two first-class passenger tickets for himself and wife at Winston-Salem, from that point to Goldsboro; that the train taken by him was a night train, leaving Winston-Salem on the night of September 21, 1892; that on reaching Burlington, a station on defendant's line, he and his wife left the train, and, after spending the night at Burlington, boarded the next passenger train the following morning of the 22d September; that he tendered his two tickets for his fare and they were refused by the conductor, and he was required to pay, under protest, his passage from Winston-Salem to Goldsboro, amounting in the whole to the sum of \$7.60; that he had demanded of the defendant to refund to him said sum of \$7 60 thus unjustly taken from him, or to refund to him the unused portion of his two tickets, and the defendant has refused to refund.

The plaintiff alleged that this act on the part of the defendant was a violation of the tariff prescribed by the Commission, and also of the act requiring carriers to refund the unused portion of tickets sold by them to the parties entitled to receive the same.

The plaintiff filed as a part of his complaint the two tickets mentioned, and also the receipts given him by the conductor of the defendant's road for the amounts which he was required to pay in order to secure transportation for himself and wife to Goldsboro on defendant's train.

The complaint was served on the defendant, and a communication received from it that the complaint should be investigated and answered as soon as such investigation could be made.

On the 20th day of March, 1893, the defendant filed with the Commission the correspondence between its officers in conducting the investigation, and especially the letter of General Passenger Agent W. A. Turk, bearing date March 2, 1893, addressed to Col. A. B. Andrews, General Agent of the Receivers, submitting a statement of facts, and closing as follows: "After you have looked this matter over carefully and presented the same to the Commissioners, if they decide that we

should refund the money, please have the two tickets in question, with conductor's cash fare receipts, returned and I will send check covering the amount; you will note tickets and receipts are hereunto attached with the papers."

Treating this as an agreement to submit this controversy to the Commissioners as arbitrators under the 31st section of the act creating the Commission, after notice thereof to the parties, at a session of the Commission at Raleigh, beginning March 21, 1893, the case was called for hearing, and the following facts were found:

1. That the plaintiff purchased of the defendant's agent at Winston-Salem, on the 21st of September, 1892, two regular tickets of first class fare for the transportation of himself and wife to Goldsboro.

2. That said tickets read as follows: "Richmond and Danville Railroad. First class. Good for one continuous passage on this day and train only. Baggage liability not to exceed one hundred pounds. Salem to Goldsboro." One of these tickets was numbered 465 and the other 466, and each of them stamped on the back, "R. & D. R. R. Co., Winston-Salem, N. C."

3. That plaintiff and his wife boarded the train on the night of the 21st, and after reaching Burlington got off there. After spending the night they boarded defendant's next train the following morning for Goldsboro; that they tendered to the conductor on said train said tickets for their fare, who refused to receive the same and required the plaintiff to pay his fare to Goldsboro, \$7.60, which he did under protest, taking the conductor's receipt therefor.

4. That the unused portion of said tickets, that is to say, the portion thereof from Burlington to Goldsboro, amounted to \$7.00.

5. That the plaintiff had no actual notice of the condition of the tickets requiring him to proceed by that train and on that day only, and when he left the train at Burlington and resumed his journey next day, did not intend to violate any rule of the defendant or to commit any wrong against the defendant.

6. That said rule or condition requiring the purchasers of such tickets as those mentioned to proceed on the day and train for which they were purchased, is intended to prevent fraud on the part of travelers, which they might otherwise practice on the conductors of the companies selling said tickets.

7. That section 3 of chapter 290, Laws of North Carolina, 1891, which was in force when this controversy arose, provides: "That when any one-way or regular ticket is sold by any railroad company, and when

unused by the purchaser thereof, it shall be the duty of the railroad company selling the ticket to redeem said ticket at the same price paid for it."

8. That the plaintiff has made demand upon the defendant to redeem said unused portion of said tickets, but the defendant has refused to comply with said demand.

From these facts, the Commission concludes, and so awards, that the defendant company ought to redeem said unused portion of said tickets and to refund to the plaintiff said sum of \$7.

In coming to this conclusion the Commissioners do not hold that the regulation or condition printed on said tickets is unreasonable and ought not to be enforced in any case, but they find that the plaintiff in this case has fully met and answered any appearance of wrong-doing on his part of which *prima facie* he may have seemed guilty, and has brought himself within the provisions of Section 3 of the Act of 1891, above cited, by showing that in fact he had not used his tickets further than to Burlington.

Wherefore, it is adjudged that the defendant refund to plaintiff the sum of \$7, the unused portion of the tickets mentioned in the complaint.

By order of the Board.

v.

WESTERN UNION TELEGRAPH COMPANY.

March 21, 1893.

This complaint was filed October 18, 1892. The plaintiff alleged that on Saturday, the 8th October, 1892, he delivered to the agent of the defendant at Wilmington a telegraphic message, prepaid and addressed to J. H. McGilvary, the agent of the Southern Express Company at Tatum's, South Carolina; the said message was handed to the agent at 9:20 o'clock, P. M., and he was requested by plaintiff to forward at once; that plaintiff advised said agent unless he did forward said message at once plaintiff would lose \$30 or \$40; that said message was not delivered until next day at 6:35 P. M.; that plaintiff lost by this delay \$19.75; that said loss was caused by the negligence of the defendant in not transmitting and delivering said message.

The plaintiff prayed the Commission to investigate the alleged grievance, and for such relief as the Commission might see proper to adjudge in his behalf.

On the 26th of November following the defendant answered through its general attorney, George H. Fearons, alleging that said message was filed after the closing of a necessary relay office for the transmission of the same, so that it could not be forwarded the night on which it was filed, and that plaintiff was so advised at the time he delivered it to the agent of the defendant; the answer denied that any damage had been caused by the delay, and refused to entertain the claim for damages.

At a session of the Commission at Raleigh, December 5, 1892, the case was called, and the following communication addressed to the plaintiff. "Your case was called for hearing by the Commission this morning. A case very similar to yours was before us last summer, when it was desired through this channel to deal with the telegraph company for alleged delay in transmitting a message, as in your case. The telegraph company denied our jurisdiction, in which it was sustained by the Judge of the Superior Court, from which judgment the Commission appealed to the Supreme Court, where the case is now pending. If the Commission is sustained, your case will be called again. In the meantime; we suggest that you look for your remedy in the Courts. The act recognizes your right to pursue your remedy in the Courts and at the same time before the Commission."

At a session of the Commission at Raleigh, beginning March 21, 1893, the case was called for final hearing, and it appearing from the opinion of the Supreme Court, in *Mayo v. Telegraph Co.*, delivered at the present term, and before referred to, that the Commission has no jurisdiction to hear and determine a case of alleged negligence on the part of a telegraph company on account of unreasonable delay in transmitting or delivering a telegraphic message, it was adjudged that the complaint be dismissed.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS,

THE CHARLOTTE OIL AND FERTILIZER COMPANY, *Complainant*,

v.

SEABOARD AIR LINE COMPANY.

March 21, 1893.

This complaint was filed December 29, 1892. The plaintiff alleged that it was a mercantile firm engaged in the manufacture of cotton-seed oil and fertilizers at Charlotte, N. C., and that the defendant was guilty of discrimination in its rates on fertilizers and cotton-seed meal against Charlotte and in favor of Wilmington. Plaintiff further alleged that defendant was charging a rate of \$3.50 per ton from Charlotte to Pittsboro, while it only charged a rate of \$2.70 from Wilmington to Pittsboro; that it charged a rate of \$3.50 per ton from Charlotte to Carthage, while it only charged a rate of \$3 from Wilmington to Carthage; that the distance from Wilmington to Pittsboro was about the same as the distance from Charlotte to Pittsboro, and the distance from Wilmington to Carthage was about the same as the distance from Charlotte to Carthage.

The plaintiff demanded judgment against the defendant, requiring it to desist from further violation of the act creating the Commission.

This complaint was served on the defendant January 7, 1893, and on the 9th of February following defendant answered through, O. V. Smith, its Traffic Manager, that it would put in effect at once from Charlotte to all R. & A. stations a rate of \$2.70 per ton, two thousand pounds, on cotton-seed meal and fertilizers.

The case was continued for further investigation, and the plaintiff advised of this answer.

At a session of the Commission held at Raleigh, beginning March 21, 1893, this case was again called, and it appearing that the relief asked had been granted, and that no further investigation was needed, it was dismissed.

By order of the Board.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS,LATHAM, *Complainant*,

v.

RICHMOND AND DANVILLE RAILROAD COMPANY.

March 21, 1893.

This was a complaint against defendant of unreasonable rates charged on vegetables and fruits to and from points on defendant's lines in Eastern and Western North Carolina. The plaintiff filed as part of his complaint two freight bills, one of them for seven barrels of potatoes from Goldsboro to Winston, upon which the freight charged was \$5.91, the weight of the shipment being 1,740 pounds; the other of them for six barrels of potatoes from Goldsboro to Winston, weight 1,380 pounds, and freight charged \$4.69.

The complaint was filed November 5, 1892. The Commission, after examining the complaint and comparing the freight bills with the rates prescribed over defendant's lines, addressed a communication to plaintiff, bearing date January 25, 1893, advising him as follows; "The Commissioners' classification is as follows: Potatoes in barrels L. C. L., estimated 175 pounds per barrel, 3d class—if released, 6th class. Shipping them released, you will notice this gives you a low rate. If you should be charged in excess of that rate, please let the Commission hear from you, and the matter will have prompt attention."

At a session of the Commission at Raleigh, beginning March 21, 1893, this case was again called, and there being no answer to said communication, and it further appearing that the rates mentioned were not in violation of those prescribed by the Commission, and that no further investigation was demanded, the action was dismissed.

v.

WILMINGTON, ONSLOW AND EAST CAROLINA RAILROAD COMPANY.

March 21, 1893

This was a complaint filed December 15, 1892, for overcharge on freights from Jacksonville to Wilmington, forwarded over defendant's

line. The complaint was served on defendant the 15th December, 1892, and on the 20th following defendant answered, denying the overcharge, and alleging that while the freights were billed from Jacksonville to Wilmington they were really brought from Marine's, a boat landing on New River, some distance below Jacksonville, and that the apparent overcharge was due to this additional transportation. The defendant also alleged that it had made arrangements with its patrons who were receiving shipments from along New River, which were highly satisfactory to them, and expressed surprise at the complaint of the plaintiff. This answer was served on the plaintiff, who replied thereto on the 11th of January, 1893, admitting that the freights mentioned in the complaint were forwarded from Marine's instead of from Jacksonville as alleged in the answer of the defendant, and asking that no further action be taken against the defendant.

At a session of the Commission at Raleigh, beginning on March 21, 1893, this case was called for a final hearing, and it appearing that the plaintiff had asked leave to withdraw his complaint, and it further appearing that the defendant had not violated the rates prescribed by the Commission, it was adjudged that the complaint be dismissed.

RICHMOND AND DANVILLE RAILROAD COMPANY.

March 21, 1893.

This was a petition filed January 20, 1893, asking that the defendant furnish a depot agent at Guilford College Station, a station on defendant's road.

The petition was served on defendant January 20, and thereafter, on January 21, defendant answered, through A. B. Andrews, General Agent of the Receivers, alleging that the business at Guilford College Station did not justify the defendant in putting an agent there.

The case was continued for further investigation and hearing; and at a session of the Commission held at Raleigh, beginning March 21, 1893, was called for a final hearing, and it appearing that the defend-

ant had granted the relief asked by appointing and sending an agent to Guilford College Station, and that no further relief was demanded; the petition was dismissed.

TO
THE RAILROAD COMMISSION.

March 21, 1893.

This was a petition filed February 22, 1893, asking that the Lenoir and Blowing Rock Telegraph Company be relieved from Circular 25, which prescribed a rate of forty cents for messages in this State passing over two or more lines.

On March 2 following the petitioner filed with the Commission a statement of receipts and expenditures of this company for the months of January and February, 1893. The Commission also made a careful investigation from other sources, and it appearing that the Circular might work a hardship as to this company, and that its enforcement was not demanded by the interests of the public, at a session of the Commission at Raleigh, beginning March 21, 1893, it was adjudged that the prayer of the petitioner be granted, and that the Lenoir and Blowing Rock Telegraph Company be relieved from operation of Circular No. 25.

v.

RICHMOND AND DANVILLE RAILROAD COMPANY.

March 21, 1893.

This was a complaint of overcharge on a car-load of box material shipped by plaintiff over defendant's road.

The complaint was filed December 8, 1892, and served on the same day. On January 30, 1893, defendant answered, through its General Freight Agent, J. H. Drake, that it would protect its bill of lading, guaranteeing a rate of \$46 per car, 20,000 pounds, to the plaintiff.

On March 14 the Commission addressed a communication to plaintiff that the Commission had been advised by defendant that the overcharge had been directed to be refunded to the plaintiff.

At a session of the Commission at Raleigh, beginning March 21, 1893, this case was called for hearing, and it appearing that the relief had been granted, the action was dismissed.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS,

G. W. SMITH, *Complainant*,

v.

RALEIGH AND AUGUSTA AIR LINE RAILWAY COMPANY.

March 21, 1893.

This was a petition filed February 17, 1893, asking that a depot be constructed at Lemon Springs, on the line of the defendant's road. The petitioner alleged that the defendant had built a side-track at said point, and that a large amount of freight was forwarded to and from the same over defendant's road; that no accommodation had been provided for receiving or forwarding said freight, and shippers were greatly inconvenienced thereby. The defendant answered the petition, through its General Manager, J. C. Winder, that "Lemon Springs was intended more for a turnout for passing trains than anything else, and the business at that place will not warrant the erection of a warehouse and the employment of an agent."

This case was assigned for hearing at a session of the Commission at Raleigh, on the 3d of March, 1893, when the petitioner, Smith, appeared as a witness, and also filed with the Commissioners the affidavits of C. H. Graham, J. Q. Swann and J. J. Edwards. The General Manager of the defendant, J. C. Winder, appeared as a witness and filed a statement from the Auditor of Accounts, showing freights received at and forwarded from Lemon Springs from and including March, 1892, to and including February, 1893. The General Manager stated to the Commission that the defendant would be willing to build a plain warehouse at Lemon Springs, sufficient to protect the freights received and delivered there.

At a session of the Commission at Raleigh, beginning March 21, 1893, this case was again called for hearing, and the following facts were found by the Commission:

1. That the total freight receipts at Lemon Springs for 12 months ending 1st March, 1893, were \$740.47.

2. That the distance from Lemon Springs to Sanford, the nearest station on one side is seven miles, and to Cameron, the nearest station on the other side is six miles.

3. That new buildings are being erected near said station and an increase of business is apparent in the immediate future.

The relief is sought in this case under section 20 of the act establishing the Commission, which provides that "the Commissioners, whenever they deem that repairs are necessary upon any railroad, or an addition to or change of its station or station-houses is reasonable and expedient, in order to promote the security, convenience and accommodation of the public, shall in writing inform the corporation of the improvement and changes which it considers to be proper," etc.

Upon the admissions of the defendant and the facts found in the case, it is adjudged by the Commission that the defendant erect at Lemon Springs a warehouse sufficient for the protection of the freight received at and forwarded from said station; that the Clerk inform the defendant of this order and that the case be retained for further instructions.

By order of the Board.

BLACKMER, BEARD *et al*,

TO

THE COMMISSION.

May 2, 1893.

This was a petition by W. S. Blackmer and other salesmen traveling in North Carolina, asking that the Commission make a rule requiring railroad companies to use more care in handling baggage. The petition was filed December 1, 1892.

On the 5th of April, 1893, the Commission issued the following Circular, No. 26: "The following rule is adopted by the Railroad Commission, to take effect on and after the 15th day of April, 1893, and to be added to the rules governing the transportation of passengers already adopted by the Commission. That all common carriers subject to the supervision of the Railroad Commission shall provide such means or appliances as may be necessary to secure the careful handling of and to prevent injury to any parcel of baggage to which a check may be affixed, as provided in section 1970 of *The Code*. That at all minor

stations where no proper appliances are supplied and no regular depot hand is employed, the train hands shall be required to assist the baggage-master and lift with care all baggage from the car doors."

At a session of the Commission held at Raleigh, beginning May 2, 1893, this case was called for hearing, and it appearing that the above Circular had met the requirements of the petition, the case was dismissed.

THE ATLANTIC COAST LINE SYSTEM.

May 2, 1893.

This was a complaint filed April 24, 1893, in which the complainant alleged that the defendant had refused to accept six hundred and forty-five miles of a commutation ticket issued by it to the complainant. Said ticket was filed as a part of the complaint.

It appeared from an inspection of the terms of the contract entered into between the complainant and the defendant, and which constituted a part of said ticket, that the complainant had failed to comply therewith and forfeited the use of said ticket.

At a session of the Commission held at Raleigh, beginning May 2, 1893, this case was called, and it appearing that the complaint did not set forth a cause of action against the defendant, the case was dismissed.

THE ALBEMARLE AND RALEIGH RAILROAD COMPANY.

May 2, 1893.

This was a petition by Alexander H. Smith and other citizens of Williamston asking for a better waiting-room and for better passenger service between Williamston and Rocky Mount.

The petition was filed February 28, 1893, and served on defendant March 12 following. On March 18 thereafter the defendant answered that a satisfactory schedule would be put into effect on April 17; that instructions had been given to enlarge the passenger accommodations at Williamston and to arrange for two waiting-rooms, one for white and one for colored passengers.

At a session of the Commission held at Raleigh, beginning May 2, 1893, it appearing that these instructions would afford the relief demanded by the petition, they were approved by the Commission.

THE WESTERN UNION TELEGRAPH COMPANY.

May 2, 1893.

This was a complaint filed March 21, 1893, alleging that the plaintiff delivered to the defendant at Raleigh, N. C., on September 2, 1892, a message to be transmitted to plaintiff's correspondent at Beaufort, N. C., and at the same time paid to said agent the charges for transmitting said message; that the defendant failed to forward the same, and plaintiff demanded that the charges paid be refunded.

The complaint was served on said 21st day of March, and the case called for hearing at a session of the Commission held at Raleigh, beginning on the 2d day of May, 1893.

It appearing that the relief demanded has been granted by the defendant, and that no further investigation is required, the case is dismissed.

BURLINGTON, *Complainant*,

v.

RICHMOND AND DANVILLE RAILROAD COMPANY.

May 2, 1893.

This was a complaint filed October 1, 1891, by the City Council of Burlington, alleging that the depot building at said place was wholly

inadequate for the accommodation of either the freight or passengers seeking transportation over the defendant's road to and from that point. The complaint was served on the defendant and an answer filed thereafter on October 7, through A. B. Andrews, 2d Vice-President of defendant company, promising to give prompt attention to the matters complained of.

On March 19, 1892, the defendant, through A. B. Andrews, addressed a further communication to the Commission, saying that the defendant had applied to the Directors of the North Carolina Railroad Company, asking them to appoint a committee to act with the defendant company in giving the accommodations asked for, and expressing the opinion that the relief would be granted.

At a session of the Commission held at Raleigh, beginning May 2, 1893, this case was called, and it appearing that a depot building has been erected at Burlington adequate to the accommodation of the public and that no further relief was demanded, the case was dismissed.

v.

THE RALEIGH AND AUGUSTA AIR LINE RAILWAY COMPANY.

May 2, 1893.

This complaint was filed on the 13th of March, 1893, alleging that the agent of the defendant had refused to deliver certain articles of freight to the complainant, upon which the freight had been paid, at Sanford, a station on defendant's line of road.

The defendant answered through its said agent, alleging that as soon as the said articles reached his station he notified complainant to send forward his bill of lading and receive his goods; that complainant did send his bill of lading on the 12th of March, and on the next day his goods were delivered to him.

This answer was served on complainant, who replied, admitting the truth of the allegation therein.

At a session of the Commission held at Raleigh, beginning May 2, 1893, the case was called for hearing, and there being no need of further investigation, was dismissed.

By order of the Board.

v.

THE CAPE FEAR AND YADKIN VALLEY RAILROAD COMPANY.

May 2, 1893.

This was a complaint filed February 20, 1893, alleging that the defendant required of the complainant to sign a bill of lading which released the defendant from all liability as common carrier before receiving complainant's shipment for transportation.

The objectionable bill of lading was filed as a part of the complaint.

On the 25th of February following, the Commission addressed a communication to complainant, advising him that common carriers could not exempt themselves by any contract with a shipper from the use of ordinary care in the transportation of goods delivered to them, and suggesting that the objectionable contract be submitted to the legal counsel of the defendant so that it might be changed to conform to the rulings of the Courts.

At a session of the Commission held at Raleigh, beginning May 2, 1893, this case was called for hearing, and it appearing that said contract had been withdrawn, and that complainant was only required to use the one which he had been using uniformly, and that no further investigation was needed, the case was dismissed.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD

v.

CAROLINA CENTRAL RAILWAY COMPANY.

May 2, 1893.

The complaint in this case was filed on the 26th day of October, 1892, and answer thereto filed on November 22 following. The Commission began at once the investigation of the case, and the facts appear as follows:

The complainant alleged that the defendant was guilty of unjust discrimination in this, that it had built a cotton compress at Hamlet, and rented the same to the Heath Cotton Company; that in addition to renting this company its compress, the defendant was paying said company 50 cents per bale for all cotton compressed and sent over defendant's road; the defendant thus gave said company one-eighth of a cent advantage over complainant and any other buyer of cotton who does not own a compress, less the expense of the compress; that it was a discrimination for the defendant to build compresses and rent them to cotton buyers. The defendant denied that it was guilty of any discrimination, and alleged that it compressed cotton for the complainant and all other shippers on exactly the same terms, the Heath Cotton Company having to pay the same seven cents additional for compressing that was required of the complainant.

There was further correspondence between the Commission and both the complainant and defendant. The cause of grievance as stated by complainant appears plainly to be the Heath Cotton Company, which is a rival buyer of cotton, has acquired an advantage over the complainant by the terms under which it has rented the compress at Hamlet from the defendant. But this seems to be purely a matter of speculation. It nowhere appears that the defendant has subjected the complainant "to any undue or unreasonable prejudice or disadvantage." At a session of the Commission at Raleigh, May 2, 1893, this case was called for final hearing and the facts appearing as above stated, the action was dismissed.

May 2, 1893.

This was a petition filed December 22, 1892, asking the consent of the Railroad Commissioners to a change of the station building at Roper.

At a session of the Commission held at Raleigh, beginning May 2, 1893, this case was called for hearing, and it appearing that the petitioning company has fully complied with the order of the Commission heretofore made on December 23, 1892, by posting notice of said petition for thirty days, and it further appearing that there is no reason

why said change of the station building should not be made, it is adjudged that the consent of the Commissioners be given to said change.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS,

D. E. STAINBACK, *Complainant*,

v.

THE ATLANTIC AND NORTH CAROLINA RAILROAD COMPANY.

June 1, 1893.

The complainant filed his complaint May 15, 1893, alleging that in 1881 he purchased a round-trip ticket from Goldsboro to Morehead City, for which he paid \$5.50; that two days after, finding he did not have occasion to use said ticket, he applied to defendant's agent at Goldsboro for a return of the amount paid, and payment was refused; that the ticket was limited, but that he applied for payment before the limit had expired. Complainant asked that defendant be required to issue another ticket to him or refund the amount paid.

At a session of the Commission, held at Raleigh, beginning June 1, 1893, it appearing that the complaint did not state facts sufficient to constitute a cause of action, the matters therein alleged having occurred before the act constituting the Commission, the case was dismissed.

By order of the Board.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS,

W. S. DAVENPORT, *Complainant*,

v.

THE NORFOLK AND SOUTHERN RAILROAD COMPANY.

June 1, 1893.

In this case, in which the complaint was filed May 11, 1893, it was alleged that the defendant charged as much for the transportation of furniture from Plymouth to Mackey's Ferry, a distance of 21 miles, as was charged by the Atlantic Coast-Line system for the same service from Goldsboro to Plymouth, a distance of 170 miles, and that this was an overcharge.

The complaint was served and answer filed on May 14, following, in which it was alleged that the shipment in question was carried by steamer from Plymouth to Edenton, and thence by rail to Mackey's Ferry; that the steamer's rates from Plymouth to Edenton is 20 cents per 100 pounds, and the rate from Edenton to Mackey's Ferry is 15 cents per 100 pounds, the total rate charged being 35 cents per 100 pounds; that the mileage by water is 20 miles, and by rail 9 miles; and that the rate is reasonable, the conditions being very different from an all-rail movement.

The complainant filed his duplicate bill of lading, from which it appears that he had been charged for the transportation of 1,250 pounds from Plymouth to Mackey's Ferry—29 miles—\$4.38. This was at the rate of 35 cents per 100 pounds, and this was in accordance with the tariff prescribed by the Commission.

At a session of the Commission, held at Raleigh, beginning June 1, 1893, this case was called, and it appearing that the defendant had not violated the tariff prescribed by the Commission, and that no cause of action existed demanding a further investigation, the case was dismissed.

By order of the Board.

A. B. PEARSALL, *Complainant*,

v.

THE CAPE FEAR AND YADKIN VALLEY RAILROAD COMPANY.

June 1, 1893.

This complaint was filed May 4, 1893. It was alleged that the defendant company had, within the last few days before the filing of the complaint, advanced its special rates on lumber from Red Springs, the place of business of the complainant, to Concord, from $8\frac{3}{4}$ cents per hundred weight to $13\frac{1}{2}$ cents per hundred weight, while they still carried 21 miles further, on the same line, to Charlotte at the former rate. The complaint further alleged that this advanced rate would stop shipments to Concord; would greatly injure complainant's business as well as the business of other lumbermen.

The complaint was served on May 5, and on May 12 following, answer was filed—Tariff Sheet, No. 6, 1997—showing that the defend-

ant had granted the relief asked by restoring the former rate of 8 $\frac{3}{4}$ cents per hundred weight.

At a session of the Commission, held at Raleigh, beginning June 1, 1893, the case was called for a final hearing, and it appearing that no further relief was asked, was dismissed.

June 1, 1893.

This was a complaint filed April 24, 1893, alleging an overcharge on a shipment of hay from Neal's, a station on the Norfolk and Carolina Railroad, to Rocky Mount, on the Wilmington and Weldon Railroad.

The complaint was duly served, and it appearing from the answer of the defendant, filed May 15 following, that the overcharge had been refunded to complainant, and that there was no need of further investigation, at a session of the Commission held at Raleigh, beginning June 1, 1893, the case was dismissed.

By order of the Board.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS,

v.

THE WILMINGTON AND WELDON RAILROAD COMPANY.

June 1, 1893.

This was an investigation on the part of the Railroad Commissioners to ascertain whether Rule 1 Governing the Transportation of Freight should be applied to rates between points on the Norfolk and Carolina Railroad and the Albemarle and Raleigh Railroad, and points on the line of the Wilmington and Weldon Railroad and its branches.

Rule 1 is in these words: "All connecting railroads which are under the management and control, by lease, ownership or otherwise, of one

and the same company, shall, for purposes of transportation, in applying this tariff be considered as constituting but one and the same road, and the rates shall be computed as upon parts of one and the same road, unless otherwise specified."

On the 1st of September, 1892, the Commission addressed to T. M. Emerson, Traffic Manager of the defendant, the following communication:

"We note you make rate on hay from Neal's, N. C., as follows: To Washington, L. C. L., 21 cents per hundred pounds; C. L., 16 cents. To Greenville, L. C. L., 18 cents per hundred pounds; 14 cents C. L. Is not this in excess of the tariff allowed on this line?"

The Traffic Manager replied as follows:

"These rates are in line with rates from other points to Greenville and Washington. I note what you say relative to our making these rates in accordance with tariff fixed by the Commission, and would respectfully call your attention to the fact that these are joint rates, Neal's being located on the Norfolk and Carolina road, and Washington and Greenville on branches of the Wilmington and Weldon road."

On September 14 following, the Commission addressed to the Traffic Manager the following: "We beg to call your attention to Rule 1, page 39 of the annual report of the Commission, governing the transportation of freight. The Washington and Greenville and the Norfolk and Carolina roads being under one management by lease, ownership or otherwise, will necessarily have the same tariff rates established by the Commission applied to them as if they were the same road. It appears from your letter that you have made your rates under Rule 28, which has no application in this case."

Rule 28 is in these words: "On all shipments of freight not governed by Rule 1, originating and terminating in this State, which pass over the whole or portions of two or more roads not under the same control, the maximum rate charged on such shipments shall not be greater than the sum of the local rates on such freights less ten per cent. for the distance hauled over each road. The total rate thus ascertained on such freights from the point of shipment to the point of destination shall be divided in such proportions between the roads over which such freights pass, so as to give to each road interested in the shipment its local rates, less ten per cent., for the distance such shipment is hauled. Nothing in this rule shall be construed to prevent the total of any joint rate made under this rule from being divided in such proportions between the roads interested in the same as they may agree

upon; but a failure to so agree between the roads interested shall in no way affect the total joint rate to be charged and collected, or work delay in transportation of such freights; or be a subject of appeal to the Commission by the roads at interest."

To this communication the Traffic Manager replied, on September 21 following, alleging that the Wilmington and Weldon Railroad Company in no way controlled the Norfolk and Carolina Company; that they were separate and distinct corporations; that while, in some cases, as a matter of economy, they had joint officers, such officers, when acting for the Norfolk and Carolina Company, were in no way governed by the Wilmington and Weldon Company, but acted entirely as individual officers of that company.

The case was continued for further investigation, and after much correspondence, on February 3, 1893, the Commission addressed to J. R. Kenly, General Manager of the defendant, the following: "You are asked to appear before the Commission at Raleigh, on Thursday, the 9th day of February, to show cause why the Norfolk and Carolina Railroad should not conform to Rule 1 of Rules Governing the Transportation of Freights, in applying the tariff to it and points on the Wilmington and Weldon Railroad and branches."

To this summons the defendant made answer, through its Traffic Manager, T. M. Emerson, who appeared before the Commission, and after an examination as a witness asked that written interrogatories might be furnished him and time given to furnish answers thereto. To this the Commission assented, and these interrogatories were answered on the 28th of March following by W. G. Elliott, President of defendant company, who on the 31st of March added the following: "I do not know that we shall object to having Rule 1 applied, as you suggest, to the Norfolk and Carolina and the Albemarle and Raleigh Railroads, and we are inclined to consent that the same shall be done. Our Traffic Manager suggests that there are now separate and distinct rates as to each of these roads and the Wilmington and Weldon. It will be necessary, therefore, for the Commission to decide which of these rates shall be applied to the several roads under Rule 1, and I take it that our Traffic Manager will be given a hearing on this subject before any order is made by the Commission. When this is done, I think there will be no difficulty about arranging that the several roads shall be put under that rule."

There was other correspondence, which need not be set out, and on the 25th of April the defendant, through its Traffic Manager, submit-

ted to the Commission the following: "I beg to submit herewith tariff made up on basis of Albemarle and Raleigh Railroad rates, as per page 79 of your report for 1891, with the exception that the maximum rate to be charged is fixed as follows: 1st class 68, 2d class 58, 3d class 48, 4th class 38, 5th class 33, 6th class 25, A 18, B 24, C 23, D 18½, E 33, F 44, H 38, K 15, L \$2.10, M \$2.53, N \$40, O \$30, P \$25.30—these rates to apply between all stations in North Carolina on the Norfolk and Carolina Railroad and all stations on the Wilmington and Weldon Railroad and branches; between all stations Albemarle and Raleigh Railroad, and stations on Norfolk and Carolina Railroad in North Carolina, and between all stations Albemarle and Raleigh Railroad and stations Wilmington and Weldon Railroad and branches. I trust this tariff will meet with your approval, and will be glad to hear from you as early as possible in order that we may print same and put in effect." This was accompanied by a joint tariff sheet drawn up in accordance with this basis.

In answer thereto, on May 3, the Commission addressed to the Traffic Manager the following: "Your proposed tariff for joint rates between Albemarle and Raleigh, Norfolk and Carolina, and Wilmington and Weldon Railroads has been considered by the Commission. The same is not altogether satisfactory; one reason, among others, that there is a discrimination against other companies. For instance, the Richmond and Danville system for all joint rates, except the Murphy division, applies the Commissioners' Standard Tariff. Most of the connections of the Richmond and Danville do less business than any one of your system. We do not, however, desire so radical a change as this might appear to be, but will approve of the schedule submitted, asking that you apply the standard of the Commission to the following farm products, viz.: wheat, corn, rye, oats, hay, fodder, straw and cotton."

On the 8th of May following the defendant addressed to the Commission, through its Traffic Manager, the following: "Replying to yours of the 3d in regard to the joint rates between the Albemarle and Raleigh, Norfolk and Carolina, and Wilmington and Weldon roads submitted to the Commission, I infer from your letter that the rates as published therein, with the exception of Class D, which covers all articles named except cotton, are satisfactory, and that you desire us to adopt for Class D, Standard Tariff of the Commissioners. If we have correctly understood you in this, we are willing to do so, and on receipt of advices from you will issue tariff and send copy to you. So far as cotton is concerned, this is not covered by the tariff sent you, as there is

no movement of cotton between local stations, and we have a special cotton tariff from all that territory to the cotton receiving points on our system, which rates are filed with the Commission and we understand to be satisfactory."

To this the Commission replied on May 12: "Your letter bearing date May 8 is in accord with the letter addressed to you bearing date May 3. With the exception of the classification of hay, less than car-loads, which you will note is Class 6, in making up the tariff be governed accordingly. Please issue tariff at once."

On May 15 the following was received by the Commission from the defendant: "We are printing tariff as submitted, making Class D Standard Tariff, and issuing special on hay, fodder, etc, less than car-load, on the same basis as allowed for 6th Class on the Wilmington and Weldon Railroad local."

At a session of the Commission, held at Raleigh, beginning June 1, 1893, this case was called for a final hearing, and it appearing that defendant had applied Rule 1 governing transportation of freight to its rates between points on the Norfolk and Carolina, the Albemarle and Raleigh, and Wilmington and Weldon Railroads, and its branches, as advised to do by the Commission and as set out in the record, and that no further investigation or order was required, the case was dismissed.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS,

WRIGHT, *Complainant*,

v.

THE WILMINGTON AND WELDON RAILROAD COMPANY.

June 21, 1893.

This was a complaint filed May 31, 1893, in which it was alleged that on a certain day named, as well as on many other days, the train on defendant's line from Wilson to Fayetteville was so far behind as to miss the connection at Selma with the Richmond and Danville road, causing great inconvenience; that on the day named the defendant's train, on which was the complainant and ten or fifteen other persons desiring to make the said connection at Selma, was thirty minutes late; that they wired the Richmond and Danville Company at Selma, asking

it to hold its train at Selma, and that the Wilmington and Weldon would make up part of the lost time; that they arrived in Selma only fifteen minutes after the Richmond and Danville had passed. The complainant demanded that the defendant be required to make closer connection at Selma.

The complaint was served June 1, and defendant answered alleging that the Richmond and Danville train starts at Goldsboro, and is therefore generally on time, while its own train connects with its through train at Wilson, and whenever the latter train is late it necessarily delays the movement of the train on its Fayetteville short line, as it is compelled to wait for this through connection in order to get the through passengers, mail and express, etc.; that the Richmond and Danville only waited on its connection fifteen minutes; that its through trains during summer are generally on time.

At a session of the Commission, held at Raleigh, beginning June 21, 1893, the case was called for hearing.

This relief was sought under the 24th section of the act establishing the Commission, which provides, among other things, that "connecting lines shall be required to make as close connection as practicable for the convenience of the travelling public." In order to carry out the provisions of this section the Commission established Rule 11 governing the transportation of passengers, which is in these words:

"That all connecting railroads which are under the management and control, by lease, ownership or otherwise, of one and the same company, or at connection with a different company, shall be required to make close connection whenever practicable."

Pending this investigation, the Commission inquired of Vice-President Andrews of the Richmond and Danville Company whether he could hold the trains of that company longer than fifteen minutes at Selma, when notified of a delay on the part of defendant's train, and still maintain his through connections at Greensboro. He assured the Commission that he could not, with safety, do so. It appeared that the inconvenience, in every case, arose from delay on the part of defendant's trains, and that this delay was in every case caused by delay at Wilson in waiting there for defendant's through connection. It also appeared that the Richmond and Danville held its trains for fifteen minutes at Selma.

The Commission earnestly desire to remedy the inconvenience complained of, at the same time it did not seem wise to disturb the connection of the defendant at Wilson, or of the Richmond and Danville

Company at Greensboro, by any order requiring the former to leave Wilson earlier, or the latter to make a longer stop at Selma.

The Commission concluded that it would advise the defendant to guard in the future against delay at Wilson; and when delay there was unavoidable, to make up its lost time by increasing its speed between that point and Selma as much as safety to its passengers might allow; in any case of delay, to require its agents at Wilson to telegraph the agents of the Richmond and Danville Company at Selma of the delay and request that the trains of the latter be held as long as possible at that point; and to advise the Richmond and Danville Company to instruct their agents at Selma when such telegram is received to hold the train at Selma as long as possible to await the train of the defendant.

It appearing that no further order was required at present, the case was dismissed.

By order of the Board.

ATLANTIC COAST LINE
TO
THE RAILROAD COMMISSIONERS.

June 21, 1893.

This was a petition filed February 7, 1893, asking consent of the Commissioners to discontinue agency at House, a station on the line of the Scotland Neck branch.

Answer to the petition was filed by D. T. House and many others, citizens of the county of Pitt, residing at or near House, alleging that a discontinuance of said agency would greatly inconvenience the patrons of said road living on the North side of Tar river; that said agency was established in April, 1892, and asking that the Commissioners refuse their consent to said discontinuance. The case was continued for a full investigation of the facts. There was much testimony.

At a session of the Commission, held at Raleigh, beginning June 21, 1893, the case was called for hearing and the petitioning company appeared through its counsel, A. W. Haywood, Esq. It was conceded that the land upon which the depot building had been erected was granted by David House, upon the consideration and agreement that a depot should be erected thereon. It was further conceded that the receipts of the company at House amounted to about \$1,700 per annum.

Wherefore, without a further finding of facts, it was considered and adjudged by the Commission that the consent of the Commissioners to a discontinuance of the agency at House be not granted.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS.JOHN M. FAISON, *Complainant*,

v.

SOUTHERN EXPRESS COMPANY.

June 21, 1893.

The complaint was filed in this case on April 24, 1893. The complainant alleged that he had twenty-nine crates of strawberries accepted and billed by defendant's agent at Faison on the 21st of April, 1893; that when train came, the cars were loaded and defendant refused to take them; that they were afterwards shipped by freight train, thus causing delay in transportation and loss to complainant. The demand was that defendant be required to pay to complainant the amount of said loss.

The complaint was served, and on May 10 following defendant filed its answer, admitting the failure to carry the complainant's berries as alleged in the complaint, but alleging by way of excuse that on the day previous to the injury complained of its agent, W. Buckner, had passed over the road from Goldsboro to Wilmington and ascertained that only 700 crates would be offered the next day for transportation; that facilities were provided for that number, but that next day 1,500 crates were offered; that defendant was compelled to leave some of these, among them those belonging to complainant.

Answer further alleged that at the 'Truckers' Association, held at Faison on the 31st of March previous, the said agent of defendant made the public announcement that defendant would not be able to carry half the incoming crop owing to the limited space allowed defendant on the passenger train, and notified shippers that they had better make arrangements for other means of transportation. That the complainant was present and heard this announcement. That the said agent, also before the season opened, wrote to each member of the transportation committee of the 'Truckers' Association, stating that defendant would not be able to "begin to handle" the entire crop, and urging that other arrangements be made. That after taking every precaution as above set forth to confer with and advise shippers of the situation, the defendant was not chargeable with any neglect.

After reading and considering the answer of the defendant, and assuming all the facts therein stated to be true, the Commission, on May 13, filed the following opinion and directed a copy thereof to be forwarded to the defendant:

"It is the opinion of the Commission that the facts stated in your answer do not relieve you from liability in this case for any damage which may have been sustained by reason of the delay of the shipment. Your attention is called to the fact that your company alone has the privilege of doing an express business over the line of the Wilmington and Weldon Railroad. To your company alone can the public look for express transportation facilities. To concede that by giving notice to truckers of your want of space to carry more than a limited quantity of the produce would be to concede to your company the right to limit production. It is clear to the Commission, from the decisions of our Courts, as well as from reason, that you owe a duty to the public from which you cannot escape by any notice which you may give or by any press of business; nothing but some unforeseen pressure, something that no reasonable foresight could provide against, would excuse you. The facts stated in your answer do not point out so extreme a case as the latter. This opinion is given so that you may be guarded in the future in supposing that you can exempt yourself from liability in the manner indicated in your letter. As to the matter of damage in this case the complainant has been asked to state what loss, if any, he has sustained, and upon the proof offered by him the case will have further hearing. In the meantime, the Commission hopes the differences will be settled."

At a session of the Commission, held at Raleigh, beginning June 21, 1893, this case was called for hearing, and it appearing that the loss of the complainant has been satisfactorily adjusted by the defendant, and that no further action is required, the case was dismissed.

v.

THE RICHMOND AND DANVILLE RAILROAD COMPANY.

June 21, 1893.

The complainant alleged that he had located his saw-mill at Green's, a station of the defendant company, on the line of the Oxford and Clarksville Railroad Company, twelve miles from the town of Durham; that the rate charged him on lumber by the defendant from Durham to Norfolk, Va., was 17 cents per 100 pounds, while the rate charged

from Durham, twelve miles further on the same line, was 10 cents per 100 pounds. The complaint was filed June 5, 1893, and thereafter, on June 10, the defendant, through its General Freight Agent, J. H. Drake, answered, admitting the allegations of the complaint, but alleging by way of defence that the discrimination was made to meet competition with the Raleigh and Gaston Company at Durham. The defendant further answered that the rate should be at once changed and the discrimination corrected. On the 17th of June following, the Commission was advised by complainant that the rate had been made satisfactory and no further relief was asked.

At a session of the Commission held at Raleigh, beginning June 21, 1893, the case was called for hearing, and it appearing that no further investigation was required, it was dismissed.

v.

THE WILMINGTON AND WELDON RAILROAD COMPANY.

July 11, 1893.

In this case the plaintiff complained and alleged: That his place of business, Whichard, was on the Washington branch of defendant's line, sixteen miles from the town of Washington; that the charge on a barrel of flour shipped from Baltimore to his place was 48 cents, while it was carried sixteen miles further, to Washington, for 30 cents per barrel; that defendant charged \$1 for carrying a bale of cotton from Washington to Norfolk, Va., while it charged \$1.40 for the same service from his place, which was sixteen miles nearer Norfolk.

The complaint was served June 16, and answer filed June 21 following. The answer alleged that the discrimination complained of was on account of strong water competition at Washington.

The case was called for hearing at a session of the Commission, held at Raleigh, beginning July 11, 1893. It appeared that the rates complained of were interstate and that the Commission had no jurisdiction of the complaint. It further appeared that the discrimination complained of was on account of water competition at Washington, and the

Commission was of opinion that the complaint for this reason ought not to be referred to the Interstate Commission. The action was dismissed.

This complaint was filed June 12, 1893, for loss on account of error in billing a car-load of lumber to the Burke Tanning Company instead of to the Morganton Manufacturing Company, both of said companies having their places of business in different parts of the town of Morganton. The complaint was served June 12, and on July 10 the defendant answered, through its General Freight Agent, J. H. Drake, promising a prompt investigation.

At a session of the Commission, held at Raleigh, beginning July 11, 1893, this case was called for hearing, and it appearing that the defendant had refunded the loss and no further relief was demanded, it was dismissed.

v.

RICHMOND AND DANVILLE RAILROAD COMPANY.

July 11, 1893.

This was a petition filed February 13, 1893, asking that a depot be erected at Whittier, a station on defendant's line.

The petition was served on February 17, and answer thereto on March 22, in which defendant promised that repairs should be made

at once to the floors and platform, so as to put the depot in good condition; the answer further alleged that the receipts at said station were on the decrease. On March 28 this answer was forwarded to the petitioners, accompanied by the following communication:

"We hand you copy of letter from Col. A. B. Andrews relating to the depot at Whittier. You will note what he has to say. Will you advise whether this proposed work will be satisfactory? If not, furnish further information; the population of the place, number of stores, amount of business done," etc.

To this communication no answer has been furnished and no complaint made.

At a session of the Commission, held at Raleigh, beginning July 11, 1893, this case was called, and it appearing that no further investigation was needed, and no further order necessary, the action was dismissed.

July 11, 1893.

This was a complaint filed May 30, 1893, that articles consigned to complainant at Godwin from Wilmington, and delivered to defendant at the latter place for transportation, had not been delivered to complainant, and were lost in transitu; that the value of said articles was \$11.81, as shown by an itemized statement of them. The complainant asked that the defendant be required to make good the loss. The complaint was served May 31, following.

v.

NORFOLK AND CAROLINA RAILROAD COMPANY.

July 11, 1893.

Plaintiff complained of discrimination in rates on shipments from Edenton to Knight's and Tarboro in favor of the latter against the former place on defendant's line; that the rate charged *via* Tunis from Edenton to Tarboro was 21 cents per 100 pounds, while to Knight's, which is 12 miles nearer Edenton, the rate charged was 45 cents per 100 pounds.

The complaint was served on May 27, 1893, and thereafter on June 23 the defendant answered, alleging that the reduced rate to Tarboro was put in force to meet water competition, but in order to put Knight's and Tarboro more nearly equal the defendant would ignore this competition and issue a new tariff, which was filed as a part of the defendant's answer.

At a session of the Commission, held at Raleigh, beginning July 11, 1893, this case was called for hearing, and it appearing from an inspection of the new tariff filed that the rates had been fairly adjusted and the discrimination corrected by giving the same rates to Knight's as to Tarboro, the action was dismissed.

v.

WILMINGTON, COLUMBIA AND AUGUSTA RAILROAD COMPANY.

July 11, 1893.

In this case the plaintiff alleged as follows: That on April 5, 1893, he consigned to his correspondent in Philadelphia three barrels radishes, and placed the same in defendant's warehouse at Whiteville at 1 o'clock P. M.; that defendant's agent was not present to receive said articles, and did not arrive at the warehouse until the train had left; that this train is due at 1.15 P. M., and left at 1.28 P. M.; that the agent refused to bill and ship said articles; that if the agent had been at the warehouse at 1 o'clock P. M. the articles could have been shipped by said train; that said train, upon which plaintiff desired to ship, made connections with a fast train provided for carrying vegetables to Northern markets, and which ran only on Tuesdays and Thursdays; that plaintiff was compelled to ship by express, which left Whiteville eighteen hours later; that he was compelled to incur a loss on account of difference in charges of 50 cents per 100 pounds, besides damage to his vegetables on account of the delay in transportation.

Plaintiff demanded that defendant be required to make recompense for the loss sustained.

The complaint was filed April 8, 1893, and at once served, and answer filed April 24, following, promising investigation.

At a session of the Commission, held at Raleigh, beginning July 11, 1893, the case was called for hearing. The relief was sought under Rule 26, prescribed by the Commission, which is as follows:

"All depots situated in incorporated towns and cities in this State must be kept open each day, Sundays excepted, for the receiving and delivery of freight, as follows: From April 1 to September 30, between the hours of 7 o'clock A. M. and 6 o'clock P. M.; from October 1 to March 31, 7:30 o'clock A. M. and 5 o'clock P. M., with an intermission in each case of one hour from 12 o'clock noon to 1 o'clock P. M."

It appearing that the grievance complained of has been redressed, and that the plaintiff asks no further relief, the case is dismissed.

July 11, 1893.

This was a complaint of overcharge on package from Greensboro to Kernersville. Complaint was filed April 24, 1893. Before filing the complaint, and in answer to a letter of inquiry from the plaintiff, the Commission addressed to him the following on April 15:

"Replying to your letter, bearing date April 17, relative to charge on express package, you will notice on page 126 of the Report of the Railroad Commission for the year 1891, 'that packages not exceeding five pounds in weight or \$5 in value, between any two points in North Carolina on any one system of roads, will be carried for 25 cents.'"

On June 20 the Commission addressed the following to plaintiff:

"Referring to your complaint of overcharge, the Commission would be glad to know if same has been refunded to you. If it has not been done, the matter will have immediate attention."

At a session of the Commission, held at Raleigh, beginning July 11, 1893, the case was called, and it appearing that the overcharge had been refunded, was dismissed.

IN THE MATTER OF THE CONTROVERSY BETWEEN THE ATLANTIC AND
NORTH CAROLINA RAILROAD COMPANY AND THE EAST CAROLINA
LAND AND RAILWAY COMPANY.

July 25, 1893.

The above named companies, having on the 25th day of July, 1893, signed the following agreement:

Whereas, There is now a controversy between the Atlantic and North Carolina Railroad Company and the East Carolina Land and Railway Company as to the rules and regulations and the respective duties which each shall assume towards the other in effecting a crossing by the latter company's road of the former company's tracks in the City of Newbern, it is agreed to submit said controversy to the

arbitration of the Railroad Commissioners, in pursuance of the 31st section of the act creating the Railroad Commission, and to authorize said Commissioners to settle by their award the rules and regulations to be observed by said companies respectively in crossing each others tracks in said City of Newbern, and define the duties which each company shall assume and observe towards the other in the premises.

Signed the 25th day of July, 1893.

JOHN D. WHITFORD,

For the Atlantic and North Carolina Railroad Company.

H. A. WHITING,

For the East Carolina Land and Railway Company.

The Commission having heard evidence touching said controversy, and argument thereon from J. D. Whitford, representing the Atlantic and North Carolina Railroad Company, and H. A. Whiting, representing the East Carolina Land and Railway Company, do find and award as follows:

1. The said first party, the Atlantic and North Carolina Railroad Company, shall not be required to alter the level or alignment of its tracks as now existing.

2. The construction and material employed in such crossing shall be acceptable to said first party.

3. The said crossing shall be so constructed and maintained as not to obstruct the drainage of the roadway of said first party.

4. The entire expense of the construction and maintenance of such crossing shall be borne by the said second party, which shall at all times and at its own expense promptly make such repairs and renewals of the same as may be prescribed and demanded by the proper officers of the party of the first part, and at such times and in such manner as shall not interfere with the regular movements of the trains of the said party of the first part. And should at any time semiphones be deemed necessary by either party, or extra police regulations be required, the expense and maintenance of the same shall be borne by said party of the second part, the East Carolina Land and Railway Company.

5. No trains, cars or locomotives of the party of the second part shall be allowed to stand across the tracks at said crossings without consent of party of the first part, and no trains, cars or locomotives of the party of the first part shall be allowed to stand on the tracks of said crossings for a period longer than five minutes without proper signals or if

no train is approaching; if, after five minutes a passenger train is approaching, the track must be cleared.

6. The locomotives and trains of both parties hereto shall, in all instances, make a full stop at a point not nearer than thirty feet from the centre of the crossing aforesaid; and the locomotives of either party shall not proceed until its engineer shall see that the said crossing is entirely clear, and that the train under his charge can proceed with entire safety.

7. The trains, cars and locomotives of said party of the first part shall have the right-of-way over those of the same class belonging to said second party, but as between trains of different classes, a passenger train of either party shall have the right-of-way at said crossing over a freight train or other inferior train of the other party; but in no case shall a detention be caused greater than five minutes.

8. The party of the second part shall be held liable for and shall promptly make good the damage caused by collisions or accidents, growing out of the maintenance and management of the said grade crossing, unless such collisions or accidents shall be due to negligence on part of the party of the first part; and in like manner the party of the first part shall be liable for and shall promptly make good any and all such damages arising out of its own negligence in the premises. In case repairs or renewals are made necessary by acts of parties other than the parties to this agreement, such repairs and renewals shall be made by the party of the second part, and the expenses thereof shall be borne equally by and between the parties hereto.

9. The provisions of this instrument shall apply to and fully govern and control the movement of all trains operating on and over the respective roads of the parties hereto, whether such trains, cars or locomotives shall belong to the said parties respectively, or to any other parties operating over said roads.

And the above rules and regulations shall govern the parties respectively in crossing each others track in the city of Newbern, and determine their respective duties in the premises.

v.

THE RICHMOND AND DANVILLE RAILROAD COMPANY.

August 29, 1893.

This complaint was filed May 16, and served May 31, 1893.

At a session of the Commission at Raleigh, August 29, 1893, this cause was called for hearing, and it appearing from the investigations therein that it was the duty of the Commission to bring this complaint before the Interstate Commerce Commission for redress, it was so adjudged and ordered, as follows:

"To the Honorable the Interstate Commerce Commission:

"The Board of Railroad Commissioners of North Carolina respectfully ask leave to bring the above entitled cause before the Interstate Commerce Commission for redress.

"The act of the General Assembly of North Carolina creating the Commission provides in the sixth section thereof 'That upon the complaint of any person or persons, corporation or corporations, to said Commissioners of any unjust discrimination in carrying freight which comes from or goes beyond the boundaries of the State, by any railroad company, whether organized under the laws of this State or organized under the laws of another State and doing business in this State, the said Commissioners shall investigate said complaint, and if the same be sustained it shall be the duty of said Commissioners to bring said complaint before the Interstate Commission for redress, in accordance with the provisions of the act of Congress establishing the Interstate Commerce Commission.'

"The plaintiff company is duly organized according to the laws of North Carolina for the purpose of manufacturing furniture in the town of Charlotte, N. C.

"On the 16th day of May, 1893, the plaintiff filed a complaint before this Commission, alleging that the defendant company was guilty of unjust discrimination against the town of Charlotte, N. C., and in favor of Atlanta, Georgia, for that the said company charged the plaintiff 72 cents per 100 pounds for the transportation of furniture to Bangor, Penn., while it was charging for a like service to said point from Atlanta,

Georgia, 55 cents per 100 pounds, in violation of the act of Congress, and to the injury of the plaintiff's company.

"This complaint was served upon the defendant company on the 31st of May following, and on June the 5th thereafter the General Freight Agent of the defendant company, J. H. Drake, answered, saying, 'That he had received a letter from the Elliott Furniture Company in regard to rates on furniture from Charlotte to Bangor, and other interior Pennsylvania points, and that he was then seeking to make an arrangement with the connections of the defendant company whereby lower rates might be given to interior points, and that as soon as the correspondence was completed he should advise the plaintiff what had been accomplished.'

"This cause was retained by this Commission for investigation, and at its present session, to-wit, on the 29th day of August, the plaintiff company filed a communication addressed to said company, and bearing date August 25, 1893, signed by A. J. Craige, Division Freight Agent of the defendant company, as follows:

"'With reference to your letter August 23 as to overcharge to Bangor, Penn., and Annandale, N. J., I beg to advise that we cannot guarantee the same rates from Charlotte as are in effect from Atlanta to these points, but if you will make claim for the overcharge we will do what we can to have the same refunded.'

"From the investigation of this cause, and from the admissions of the defendant company's agent, it appears to this Commission, and this Commission so alleges, that the defendant company in charging a greater rate for the transportation of furniture from Charlotte, N. C., to Bangor, Penn., is guilty of unjust discrimination, and a violation of the 4th section of the act of Congress establishing the Interstate Commerce Commission.

"Copies of the correspondence filed in this cause are hereto attached and prayed to be taken as a part of this statement.

"Wherefore, this Commission prays that the Honorable the Interstate Commerce Commission, will redress the grievance herein complained of.

"By the Board."

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD

CAROLINA BEACH AND SOUTHPORT STEAMBOAT COMPANY
TO
THE COMMISSION.

August 20, 1893.

This was a petition asking the Commission to reduce the assessment of the petitioner's property from \$25,000 to \$12,000, this property consisting of two steamers, the Clarence and the Wilmington.

The petition was filed August 19, 1893. The Commission addressed a communication to the Board of Commissioners of New Hanover County asking the opinion of the Board as to the value of this property, and received answer that the conclusion of the Board, after consulting with other parties, was that the valuation of said property at \$20,000 would be equitable and fair.

At a session of the Commission at Raleigh, August 29, 1893, this petition was considered, and it was adjudged and so ordered that the prayer of the petitioner be granted in part, and the assessment be reduced from \$25,000 to \$20,000.

THE CAROLINA CENTRAL RAILROAD COMPANY
TO
THE COMMISSION.

August 20, 1893.

This was a petition filed June 15, 1893, asking consent of the Commissioners to discontinue the agency at Alma, a station on the petitioning company's railroad, and to make the same a prepay station.

The grounds of the petition are that the business of Alma is not sufficient to justify the company in maintaining the expense of the agency, and that a billing station and telegraph office is within two miles of Alma. The petition further declared that it was the purpose of the company to stop its trains at Alma as heretofore for freight and passengers, giving every facility as before, only excepting the presence of an agent.

At a session of the Commission at Raleigh, August 29, 1893, this cause was called for hearing, and it appearing that notice of the petition had been given according to law, and no objection thereto appearing, it was adjudged by the Commission that its consent be and is hereby given to discontinue the agency at Alma, and to make the same a prepay station, upon the foregoing terms set out in the petition. It is so ordered.

v.

WILMINGTON AND WELDON RAILROAD COMPANY.

August 29, 1893.

This was an action instituted by the Commission on the relation of the citizens of Wilson, asking the defendant to comply with Circular No. 1, issued by the Commission, and to afford to the public at Wilson such a station-house for passengers as shall meet the requirements of the circular.

The defendant answered, promising to comply with the terms of the circular. The case has been continued to allow the defendant time to perform the duty required of it.

At a session of the Commission at Raleigh, August 29, 1893, this case was called for hearing; and it appearing that the defendant had complied with the order of the Commission, the action was dismissed.

v.

RICHMOND AND DANVILLE RAILROAD COMPANY.

August 29, 1893.

Complaint filed May 31, 1892, alleging that defendant refused to sell plaintiff a second-class ticket from Winston to Rural Hall, on its line, for a freight train with passenger car attached.

On June 1, 1892, the Commission issued the following:

"CIRCULAR No. 19.

"On all mixed trains carrying passengers, when two coaches are attached, first and second-class tickets must be sold. When only one coach is attached only second-class rates shall be charged, unless the coach has separate apartments, then first and second-class rates may be charged. This circular to take effect July 1, 1892."

This circular, with complaint, was sent to defendant. The defendant appeared before the Commission, through its General Manager, A. B. Andrews, and after hearing argument, the Commission issued the following:

"CIRCULAR No. 21.

"The Commission will hear any exceptions to Circular No. 19, bearing date June 1, 1892, on the part of any company affected thereby, and will suspend the operation of the same in any case where sufficient reason can be shown for such suspension."

The defendant then made application to suspend Circular No. 19 on all of its roads upon which mixed trains were used.

At a session of the Commission at Raleigh, July 20, 1892, this application was considered, and no sufficient reason appearing, was denied by the Commission. This case has been continued for further orders as might seem necessary.

At a session of the Commission at Raleigh, August 29, 1893, it was called for hearing, and it appearing that no further investigation was demanded, it was adjudged that it be taken from the docket.

This was a complaint filed August 19, 1892, alleging that defendant violated the tariff for passenger fare between Oxford and Wilkins, on

its line, prescribed by the Commission, and charged ten cents more than the rate in effect before the establishment of the Commission.

The defendant answered August 24 following, and denied the allegations of the complainant. The defendant also set out in its answer the rates charged both before and after the establishment of the Commission. The answer was served on the plaintiff, and the cause assigned for hearing September 14, 1892. Neither plaintiff nor defendant appeared, and the case was continued.

August 29, 1893.

The plaintiff filed complaint February 27, 1893, alleging that it had sustained a loss by injury to goods consigned to it, over defendant's line, at Morganton. The complaint was served, and defendant answered on March 18, following, alleging that the goods of the plaintiff, consisting of a box containing window-glass, were delivered by the defendant's agent at Morganton in good order, and so receipted for; that no damage was indicated by the appearance of the box.

On March 28 the Commission addressed a communication to the plaintiff, asking that an affidavit of the person who received the box from the defendant's agent be furnished the Commission, showing how the box was handled from the time it was taken from the agent until it was delivered to plaintiff. To this communication no answer has been received.

At a session of the Commission at Raleigh, August 29, 1893, this case was called for hearing, and it appearing that the plaintiff has failed to furnish proof of the facts alleged in the complaint, it was adjudged that the action be dismissed.

v.

WILMINGTON AND WELDON RAILROAD COMPANY.

August 29, 1893.

Complaint filed January 2, 1893, and served on defendant May 20, 1893, after correspondence with plaintiff. Plaintiff alleges that the distance between Greenville and Littlefield, the former a prepay and the latter a flag station on defendant's line, was twelve miles; that the defendant was charging for second-class passenger fare over said distance forty cents. On June 10 following, defendant answered that the distance as shown by actual measurement was thirteen and one-third miles, and that the rate charged was in conformity with the tariff prescribed by the Commission, prescribing for second-class fare two and three-fourths cents per mile, and for first-class fare three and one-fourth cents per mile. The Commission called the attention of the defendant to Rule 13 Governing the Transportation of Passengers, which is as follows: "Railroad companies in computing passenger rates between stations where fractions of a mile are to be considered, will calculate for the nearest even number of miles."

At a session of the Commission at Raleigh, August 29, 1893, this case was called for hearing, and it appearing that the defendant has adjusted its passenger rates between Greenville and Littlefield so as conform to the tariff prescribed by the Commission, and in accordance with the demands of the plaintiff, viz: 40 cents for first-class and 35 cents for second-class, and that no further investigation is demanded, the action was dismissed. RICHMOND AND DANVILLE RAILROAD COMPANY.

August 29, 1893.

This was a complaint filed May 21, 1893, alleging that the defendant company charged the plaintiff, who is a distiller in Salisbury, North Carolina, 38 cents per 100 pounds for the transportation of whiskey

from Salisbury to the City of Petersburg, Virginia, while it charged for like service to Farmville, Virginia, 50 cents per 100 pounds; that in both cases the whiskey was transported by the defendant to Burkeville, Virginia, and thence to Petersburg, a distance of fifty-two miles, or to Farmville, a distance of sixteen miles; that the greater rate to Farmville was a violation of law to plaintiff's injury.

The complaint was served and defendant answered on July 26, following, giving explanation of rates and alleging that the lesser rate was on account of water competition.

On July 27 the defendant's answer was forwarded to the plaintiff and a communication addressed him by the Commission, advising the plaintiff that the grievance complained of was not within the jurisdiction of the Commission, and asking if he desired to refer the case to the Interstate Commerce Commission. To this no answer was received.

At a session of the Commission at Raleigh, August 29, 1893, the cause was called for hearing, and it appearing that this Commission did not have jurisdiction of the subject-matter of the complaint, it was adjudged that the action be dismissed. By order of the Board.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS,

CITIZENS OF MURPHY, *Complainants*,

v.

RICHMOND AND DANVILLE RAILROAD COMPANY.

August 29, 1893.

This complaint was filed July 1, 1893, by J. A. Akin and many other citizens of Murphy, protesting against the proposed change of schedule from Asheville to Murphy. The complainants alleged that if the proposed schedule went into effect the regular passenger train will leave Asheville at 7 p. m., and arrive at Bryson City at 11 p. m., compelling passengers to lie over at Bryson City over night, and then to connect with a mixed passenger and freight train daily from Bryson City to Murphy; that the delay at Bryson City deprived the complainants of a daily mail from Asheville, and delayed through passengers from 12 to 24 hours. The complainants asked that the present schedule be kept in force. The defendant filed its answer on August 19, 1893, through its General Superintendent, V. E. McBee, alleging that the proposed change of schedule benefited a majority of the traveling public by allowing them to proceed without delay at Asheville as far as Bryson City; that the travel beyond Bryson City was so light that few persons were inconvenienced in comparison with the large number required to lie

over at Asheville both ways; while the proposed schedule gives opportunity to come into Asheville in the morning at 8 o'clock and to return to Bryson City the same evening; that many, at least one thousand good people would sign a petition asking the proposed change of schedule. Defendant also filed, as part of its answer, statement showing number of first and second-class tickets sold from Murphy to Asheville for six months ending June 1, 1893; the former being forty-seven and the latter sixty-six.

On the 13th of July, and before the defendant had filed its answer, the Commission addressed a communication to the complainants, calling attention to the effect of the proposed change in making a close connection at Asheville with trains from the East, thus enabling parties going as far west as Bryson City to reach home the same day instead of being required to stay in Asheville all night; and besides, putting passengers and mail in Murphy four and a half hours earlier than by the present schedule. It appearing that the proposed schedule would cause delay to passengers going from Murphy to Asheville, the Commissioners further advised the complainants that while the act creating the Commission did not authorize the Commissioners to make schedules, but to enforce reasonable connections, the Commission would seek to secure a convenient schedule from Murphy to Asheville.

At a session of the Commission, at Raleigh, August 29, 1893, this case was called for hearing, and after considering the facts alleged in the complaint and not denied in the answer, and the facts alleged in the answer and not denied by the complainants, the Commission was of the opinion that it does not have jurisdiction to grant the relief asked.

"The act establishing the Commission nowhere gives jurisdiction to fix a schedule for any common carrier, prescribing the time of arrival and departure of its trains or their number, to suit the convenience of those who may wish to travel over its line. The purpose of the act, as construed by the Commission, is to afford relief to the traveling public by preventing unreasonable delay and inconvenience at connecting points on account of a failure to afford all reasonable and proper and equal facilities for speedy transit; hence connecting lines are not only required to make as close connections as practicable, but they are forbidden to discriminate in their rates and charges."—*Report 1892, page 592.*

The relief sought in this case is that the Commission require the defendant to retain the present schedule and forbid the proposed change. It does not appear that the Commission, by granting the relief asked,

would afford the traveling public that service which the act authorizes; on the contrary, it appears that the traveling public may be better served by the proposed change. The Commission is therefore of the opinion that it ought not to grant the relief asked, and it is so adjudged.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS,W. C. TUCKER, *Complainant*,

v.

RICHMOND AND DANVILLE RAILROAD COMPANY.

August 29, 1893.

Complaint filed June 24, 1893, alleging that on or about the 14th of June, 1891, plaintiff bought from defendant's agent at Raleigh a 1,000-mile mileage ticket-book, paying therefor \$25; that in January, 1892, plaintiff lost said ticket-book, containing 300 or more miles unused; that plaintiff had demanded of defendant to be reimbursed for the 300 miles of said ticket-book unused.

The complaint was served, and defendant answered on July 21 following, denying any violation of the laws of North Carolina or any rule prescribed by the Railroad Commissioners. The defendant filed as a part of its answer the contract which was signed by the plaintiff when he purchased said 1,000 mile ticket-book.

At a session of the Commission, at Raleigh, August 29, 1893, this case was called for hearing. The following facts are found:

1. That the plaintiff, when he purchased the said ticket-book on January 14, 1891, signed as a part of the contract of purchase an agreement of which the following conditions, among others, are material to the consideration of this cause:

"(6) That this ticket shall not be duplicated if lost.

(7) That this ticket shall be limited to use within one year from date of issue.

(8) That this ticket, if presented for redemption or transfer within the above limits, will be redeemed at two cents per mile for the unused coupons. If presented for redemption or transfer within ninety days after the expiration of limit, it will be redeemed at one and one-half cents per mile for the unused coupons. No tickets or coupons thereof will be redeemed unless presented within limits above stated."

2. That on or about the 1st of January, 1892, plaintiff lost said ticket-book, which then contained 300 miles of unused coupons.

3. That plaintiff made demand of the defendant to be reimbursed for the unused portion of said ticket-book within one year from the date of its purchase.

From these facts the Commission concluded that the plaintiff was not entitled to the relief demanded. The conditions above recited seem to

be reasonable. The act of the General Assembly creating the Railroad Commission seems to commend the issuance of mileage, excursion or commutation passenger tickets. The 25th section of the act places the issuance of these tickets among those charitable and benevolent acts of common carriers which the act will not prevent, but rather encourage. Certainly they not only furnish minimum rates, but also a great convenience to the traveling public.

The conditions required of those who avail themselves of these cheaper rates seem necessary to protect the common carrier from imposition and fraud. If the relief demanded in this cause should be granted, and the plaintiff allowed to offer proof of his lost coupons, a door would thus be opened to such imposition and fraud, or to such inconvenience and loss to prevent it, that these cheaper and more convenient rates might be altogether denied to the traveling public. It is the opinion of the Commission that the defendant has violated no provision of the act establishing the Commission or any rule or regulation made in pursuance thereof, and that the relief demanded ought not to be granted. Whereupon, it was adjudged that this action be dismissed.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD

T. P. JERMAN, *Complainant*,

v.

RICHMOND AND DANVILLE RAILROAD COMPANY.

Complaint filed August 12, 1893. The plaintiff alleged that he purchased a ticket from defendant at a reduced rate for transportation from Raleigh, N. C., to Morehead City and return at any time to the 1st of August; that said ticket was not good for the return trip unless stamped by the agent of the Atlantic and North Carolina Railroad at Morehead City; that plaintiff failed to have said ticket stamped before returning, and when he presented it to defendant's conductor on the train from Goldsboro to Raleigh he was required to pay full fare from Goldsboro to Raleigh, \$1.65, for which he took conductor's receipt; that on his return to Raleigh he sent said ticket to the agent of the Atlantic and North Carolina Railroad at Morehead City and had the same stamped in due form; that he forwarded same, with conductor's receipt, to the Auditor of the defendant company on July 25 or 26 and received his

acknowledgment, dated July 28; that he received, on August 8, letter from W. A. Turk, the General Passenger Agent of defendant, refusing to refund the fare paid.

Plaintiff demanded that the fare paid, \$1.65, be refunded or that the ticket, with the conductor's receipt, should have been returned to him so that he could use them if he chose to do so. The plaintiff filed as a part of his complaint the correspondence between himself and the Auditor and General Agent of the defendant.

On September 18 defendant answered, through its General Agent, A. B. Andrews, who filed as his answer the communication addressed to him on September 14 by W. A. Turk, General Passenger Agent, answering and explaining the matters set out in the complaint.

The case was called for hearing at a session of the Commission at Raleigh, October 17, 1893. The plaintiff appeared in person. The defendant appeared through its counsel, F. H. Busbee, Esq., and through its General Passenger Agent, W. A. Turk. The plaintiff was examined as a witness on his own behalf; W. A. Turk and S. L. Dill were examined as witnesses for defendant.

The ticket purchased by the plaintiff was put in evidence and filed with the Commission; also the copy of the stamp used by the Atlantic and North Carolina Railroad Company, and the affidavit of A. H. Webb, the Ticket Agent of the Atlantic and North Carolina Railroad Company at Morehead City. The stamp upon the back of said ticket was also put in evidence.

After hearing the testimony and the argument of counsel thereon, the Commission finds the following facts:

1. On July 13, 1893, the plaintiff purchased from the defendant a cheap-rate ticket for the price of \$2.90 from Raleigh to Morehead City and return, subject to the following conditions, among others, which were printed upon said ticket as a part of the contract of purchase: "It shall not be good for return passage unless stamped on the back by the authorized agent of the Atlantic and North Carolina Railroad at Morehead City, N. C., and when duly stamped by said agent this ticket shall then be good returning for one continuous passage, provided return trip is made to destination on or before midnight of August 1, 1893;" "that coupons will not be accepted for passage if detached;" "that unless all the conditions in this ticket are fully complied with, it shall be void;" "and it is especially agreed and understood that no agent or employee of any of the lines named in this ticket has any power to

alter, modify or evade in any manner any of the conditions named in this contract."

2. That said ticket provided transportation over defendant's road between Raleigh and Goldsboro, and over the Atlantic and North Carolina road between Goldsboro and Morehead City.

3. That plaintiff failed to have said ticket stamped before his return from Morehead City on July 17, 1893, but was allowed to use the coupon of the Atlantic and North Carolina road for his return passage from Morehead City to Goldsboro by the conductor of said last-named road, who detached said coupon as the fare for said passage.

4. That plaintiff spent the night in Goldsboro, and on the 18th of July, the next day after leaving Morehead City, presented what remained of said ticket to the conductor of defendant's train for his return passage from Goldsboro to Raleigh; that said conductor refused to allow plaintiff to pass on said ticket, and required him to pay his full fare, \$1.65, for which he gave plaintiff a receipt.

5. That plaintiff, after his return to Raleigh, sent said ticket to a friend in Morehead City, requesting him to get the agent of the Atlantic and North Carolina Railroad to stamp it; that said ticket was returned to plaintiff on the 26th of July with the following stamped on the back of it: "O. K. A. H. Webb, W. A. Short, July 26, 1893, Morehead City." That A. H. Webb is the ticket agent of the Atlantic and North Carolina Railroad at Morehead City, and placed said stamp on the ticket through mistake, intending to place on it the stamp of the Atlantic and North Carolina Railroad Company, which reads as follows: "Atlantic and North Carolina R. R. Co., Morehead City."

6. That plaintiff forwarded said ticket and receipt by first mail to the Auditor of defendant company at Washington City, and demanded that the amount paid by him from Goldsboro to Raleigh be refunded, which was refused.

7. That said ticket and receipt reached said Auditor not later than the 28th of July.

8. That the usage of the Atlantic and North Carolina Railroad Company forbids its agents to stamp such tickets as the one here mentioned, after any coupon has been detached, and the act of its agent in stamping said ticket after the coupon of its road had been detached was unauthorized.

From these facts the Commission concludes that the relief demanded by the plaintiff ought not to be granted. The contract between the plaintiff and the defendant company was for a special rate of trans-

portation, much less than the Standard Rate prescribed by the Commission. It does not appear that the conditions of the contract are unreasonable. These conditions provide, among other things, for a continuous passage. The words "continuous passage" are printed in large letters on the ticket, to show their significance. The coupons will not be accepted for passage if detached. The Company, it seems, had a right to impose these conditions in consideration of the low rate charged. It had the right to require the plaintiff, in consideration of this low fare, to have the ticket stamped before his return; before he used it on his return, or any part of it. True, he was allowed to return on it to Raleigh up to midnight of August 1, but when he returned it must be a continuous passage, and the stamp of the Atlantic and North Carolina Railroad Company before his return must be placed on the back of it by the authorized agent of that company. We do not consider the mere mistake of the agent in using the wrong stamp. If he had used the proper stamp our conclusion would have been the same. The ticket was rendered void when the plaintiff allowed the conductor of the Atlantic and North Carolina Railroad Company to detach the coupon belonging to that company, without having previously had it stamped at Morehead City. Nor is it necessary to consider the question of diligence on the part of the plaintiff, nor his good faith, which is unquestioned, in sending it to the Auditor of the defendant company and demanding a return of the fare paid by him from Goldsboro to Raleigh. Whatever may be said of making the plaintiff suffer any loss on account of a mere inadvertence on his part, the Commission does not feel authorized to disregard the provisions contained in these contracts for special rates, which ought rather to be encouraged than discouraged, because of the great convenience to the people. The Commission concludes that the relief asked by the plaintiff ought not to be granted, and it is so adjudged. By order of the Board.

v.

RALEIGH AND GASTON RAILROAD COMPANY.

October 17, 1893.

The plaintiff complained, August 31, 1893, alleging that on August 10 previous, he had left Raleigh on defendant's freight train, having

with him in the car, as his baggage, a \$22 set of harness; that defendant's train reached Henderson and he was requested by the conductor to assist a lady and children in getting off the train; that while he was doing so, the train moved off one hundred yards from the station; that he asked the conductor if his baggage would be safe in the car, and conductor replied that it would be safe; that he reached the car in a few minutes and found that the bag containing the harness was missing; that he immediately notified the conductor and police at Henderson.

Plaintiff asked that the defendant be required to pay him \$22, the value of the harness lost.

On the 23d of September defendant answered and filed as a part of its answer statement of the conductor, denying that he requested the plaintiff to leave the train in order to assist a lady who was getting off at Henderson, and alleging that the plaintiff left the train to speak to acquaintances who were on an excursion train which passed Henderson while the train on which plaintiff was traveling was on the side track.

At a session of the Commission at Raleigh, October 17, 1893, this case was called for hearing; and it appearing that the loss complained of was not due to any negligence on the part of the defendant, nor to any violation of the law establishing the Commission, nor to any rule or regulation made in pursuance thereof, the case was dismissed.

By order of the Board.

v.

ATLANTIC COAST LINE SYSTEM.

October 17, 1893.

This was a complaint by Mr. Armstead Spruill and other citizens of Plymouth, North Carolina, filed January 9, 1893, complaining of the schedule for passengers between Plymouth and Rocky Mount on the line of the Albemarle and Raleigh Railroad, and asking the Commission to make such orders as will secure better facilities for the traveling public.

The defendant filed an answer on January 15, through its General Manager, J. R. Kenly, alleging that the service was as good as the business between the points named would justify.

At a session of the Commission, at Raleigh October 17, 1893, the case was called for hearing, and the following facts appear and are found—

1. That defendant's passenger trains leave Plymouth at 5:25 A. M. and return at 10:20 P. M., running between Plymouth and Rocky Mount.

2. That the train from Plymouth connects with the main line at Rocky Mount, and also, by means of the Scotland Neck Branch, with the Norfolk and Carolina Railroad at Hobgood.

3. That a passenger leaving Plymouth at 5:25 A. M. reaches Norfolk about noon; and returning, leaves Norfolk at 4:15 P. M. and reaches Plymouth at 10:20 P. M.

4. That the train leaving Plymouth at 5:25 reaches the A. and R. Junction, a distance of thirty six miles, at 8:25, thus taking three hours to make the trip.

5. That this delay is caused by stopping the train at the different points along the distance to take up freight, the train being a mixed.

6. That the train could not maintain its connection at the Junction (A. and R.) if it left Plymouth at a latter period than the present leaving time.

7. That the present business of the A. and R. Railroad does not seem to justify the defendant in putting on the line an unmixed passenger service.

8. That since this complaint was filed the defendant has improved the schedule in compliance with the demands of the plaintiffs, and has promised to again take up the question of the schedules in Eastern North Carolina, and to endeavor to make them more satisfactory to the people of Plymouth.

These facts appearing, the Commission was of the opinion that no order ought to be made in this case, and that no further action was now demanded, and it was so adjudged.

RICHMOND AND DANVILLE RAILROAD COMPANY.

October 17, 1893.

The defendant answered the complaint July 30 following, proposing to agree in writing to submit the matters in dispute to the arbitration of the Commission.

The plaintiff answered, declining the proposition of the defendant.

v.

WESTERN UNION TELEGRAPH COMPANY.

October 17, 1893.

This was a complaint filed June 30, 1893, alleging:

1. That a telegram wired at defendant's office, in the town of Morganton at 1:14 P. M., June 28, addressed to complainant, was not delivered at his house in said town until about 3 o'clock P. M.

2. That a telegram filed at the town of Hickory, addressed to complainant's care, filed at 1:30 P. M., June 23, was not delivered until the next morning at 8 o'clock.

3. That the failure to deliver said telegrams earlier was due to the negligence of the defendant, and was unanswerable and injurious to the complainant.

The defendant answered on the 7th of September, 1893, explaining the delay, which was caused in the first case by rush of business, and in the second case by the carelessness of the agent at Hickory. The answer further alleged that the said agent had been discharged for his neglect of duty.

At a session of the Commission at Raleigh, October 17, 1893, the case was called for hearing, and it appearing from a communication addressed to the Commission by the complainant that he did not wish to prosecute this investigation further, it was dismissed.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD

COMMISSIONERS OF JOHNSTON COUNTY

TO

THE RAILROAD COMMISSION.

October 17, 1893.

This was a petition by the Commissioners of Johnston County to the Commission, asking that the Midland Railroad be re-assessed for taxation, and the valuation per mile be increased on the same, so as to make it nearer the valuation per mile placed on the North Carolina Railroad and the Wilson and Florence Railroad. The petition alleged that the said Midland Railway is a very valuable property, and that the assessment made by the Board of Commissioners of \$2,000 per mile was less than the real value per mile; that 12.63 miles of said road lies in the county of Johnston and is assessed at \$25,260; that the North Carolina Railroad runs through Johnston County for a distance of 27 miles, and is assessed at \$8,000 per mile; that the Wilson and Florence road, which lies in part in said county, is assessed at \$8,600 per mile; that the Wilmington and Weldon Railroad Company paid for said road \$3,000 per mile; that said road is in better condition now than when purchased by the Wilmington and Weldon Railroad Company.

The petition was signed by the Chairman of the Board of County Commissioners of Johnston County.

The Wilmington and Weldon Railroad Company answered, on July 21 following, and filed with their answer report of the General Auditor as to the receipts and expenses of the Midland Railroad for the year ending May 31, 1893, from which it appeared that the cost of maintenance and operation was \$7,298, and the total receipts \$3,526.50. The defendant asked that no increase be made in the assessment.

The petitioners appeared before the Commission through their attorney, Mr. Waddell; the respondent appeared through its President, Mr. W. G. Elliott. The Chairman of the Commission made a personal inspection of the said road. From the facts shown and inspection of the Chairman, it appeared that the assessment ought not to be changed for the present year.

At a session of the Commission, at Raleigh, October 17, 1893, this case was called for hearing, and it was adjudged that the petition be denied.

October 17, 1893.

Complaint filed August 19, 1893, alleging overcharge on shipment of 500 pounds hardware from Medina, Ohio, to Jacksonville, N. C.

The plaintiff filed, as part of his complaint, his receipt given him by the agent of the defendant, showing that he had been charged \$6.02.

Upon examination of the tariffs in effect upon the different lines of transportation, it appeared the rate was not excessive.

At a session of the Commission, at Raleigh, October 17, 1893, this case was called for hearing, and it appearing that the facts alleged in the complaint did not constitute a cause of action against the defendant, it was dismissed.

v.

SOUTHERN EXPRESS COMPANY.

November 14, 1893.

This was a complaint of an overcharge in the transportation of seventeen basket of grapes from Wade, N. C., to Winston, filed September 26, 1893, and served the following day.

On October 30 defendant answered that the overcharge was occasioned by the inexperience of the agent at Wade, who assessed a merchandise instead of a perishable rate, and that the overcharge had been refunded to the plaintiff.

At a session of the Commission at Raleigh, November 14, 1893, the case was called for hearing, and it appearing that there had been no intentional violation of the rate prescribed by the Commission, and that the injury to the plaintiff had been remedied, the case was dismissed.

WILMINGTON, NEWBERN AND NORFOLK RAILROAD COMPANY.

TO

THE COMMISSION.

November 14, 1893.

This was an application filed November 6, 1893, for the privilege of charging 50 cents per bale on cotton from Newbern and Pollocksville to Wilmington, in order to meet the water competition from these points to Norfolk, Va., and also to meet any further reduction in rates named by such competitors, without being required to make a corresponding reduction from intermediate points not affected by water competition.

The 6th section of the act establishing the Railroad Commission, after declaring it to be unlawful for any common carrier to charge or receive a greater compensation for the transportation of passengers or of like kind of property, under substantially similar circumstances and conditions for a shorter than for a longer distance over the same line, in the same direction, the shorter being included within the longer distance, provided: "That upon application to the Commission appointed under the provision of this act such common carrier may, in special cases, after investigation by the Commission, be authorized to charge less for longer than for shorter distances for the transportation of passengers or property, and the Commission may, from time to time, prescribe the extent to which such designated common carrier may be relieved from the operation of this section of this act."

Rule 29 of the Commission, granting the transportation of freight, provides: "When railroad rates are affected by water competition the railroad may reduce their rates between points so affected without being required to reduce intermediate rates."

The relief in this case was sought under the above provision of the act, and the rule of the Commission made in pursuance thereof.

J. W. Martenis, the General Freight and Passenger Agent of the petitioning company, appeared before the Commission at a session at Raleigh, on the 1st day of November, 1893, as a witness, and being examined, the following facts were found: That buyers of cotton from Wilmington were unable to compete with those of Norfolk, Va., in the markets of Newbern and Pollocksville, by reason of the cheaper transportation of cotton from these points to Norfolk than to Wilmington; that this transportation to Norfolk was almost altogether by water; that witness had endeavored to agree upon a rate with these competing lines and was unable to do so; that the rates of the petitioning com-

pany from intermediate points were now reasonable, and a further reduction would be a hardship; that Wilmington buyers greatly desired to enter the markets of Newbern and Pollocksville for the purchase of cotton to be shipped to Wilmington.

At a session of the Commission at Raleigh, November 14, 1893, these facts appearing and being found by the Commission, the Commission was of opinion that the relief sought ought to be granted, and it was adjudged that the Wilmington, Newbern and Norfolk Railroad Company be authorized to change its rates according to the prayer of the petition.

It is so ordered.

WILMINGTON AND WELDON RAILROAD COMPANY

TO

THE RAILROAD COMMISSION.

November 14, 1893.

This was an application to the Commission filed September 6, 1893, for the approval of certain changes which the petitioning company desired to make in its freight tariff. The company, through its Traffic Manager, T. M. Emerson, submitted a schedule setting forth the desired changes.

After considering the same the Commission, then in session at Raleigh, addressed the following communication to the company, through its Traffic Manager, bearing date September 7, 1893:

"The Commission in session to-day have been considering the rates as furnished by you. We are aware of the trouble encountered at first by us in establishing a just rate, from the fact that your charter at that time fixed certain charges. This difficulty has now been removed, and we would therefore suggest to you the propriety of establishing the Standard Tariff, thus putting your roads on the same footing as the Richmond and Danville and as the Seaboard Air Line systems. This should give satisfaction to all parties, as no discrimination will be made. We will await your reply."

To this communication the following reply was made, bearing date September 26, 1893:

"On my return to Wilmington I have your letter of the 7th. We will revise our Wilmington and Weldon local freight tariff in accordance with the suggestion made by you, which I understand to be as follows: To adopt Commissioners' Standard Tariff, with an allowance

of 10 per cent. on certain classes as authorized previously by your Board; thus putting us on an equality with the Richmond and Danville and the Seaboard Air Line systems, which also have an allowance, although it in many cases exceeds the allowance of the Wilmington and Weldon road. We are revising our tariff on this basis, to take effect October 1, except that on the majority of the classes for distances over eighty-five miles, our rates are still less than the Standard Tariff. In order that you may see exactly where our rates are higher and lower than Standard Tariff, I enclose herewith sheet showing same in detail."

To this reply, the Commission, being then in session at Raleigh, made answer, bearing date October 3, 1893, as follows:

"Replying to your letter bearing date September 26, 1893, the Commission beg to say that you are in error in stating that the tariff proposed would put you on an equality with the Richmond and Danville and Seaboard Air Line systems. The main lines of these systems have no allowance above the Standard Tariff, but are allowed a per cent. above the standard on the branches. We can see no good reason why the main line of your system should be allowed the 10 per cent. if the increase on certain classes is adhered to.

"The Commission, however, for the present at least, to give uniformity of rates on your system, are willing to concede this point, and accept the tariffs submitted, provided all of the branches as well as the roads controlled by your system are included, namely: Wilmington and Weldon Railroad and branches, the Albemarle and Raleigh, Norfolk and Carolina, Wilmington, Columbia and Augusta, Petersburg and Midland; the Cheraw and Darlington not included."

To this answer the Company replied, October 10, 1893, as follows:

"On my return to Wilmington I have yours of the 3d in regard to new W. and W. local freight tariff. I beg to say that the tariff submitted to you will apply locally to the W. and W. R. R. and all its branches, including the Midland North Carolina R. R. The local tariff of the N. and C. R. R. is identically the same, and we will change Petersburg R. R. local tariff in accordance with your wishes. So far as tariffs of the A. and R. and W., C. and A. Railroads are concerned, they are slightly different from the figures of the W. and W. R. R., and were made so on authority from your Board. I have gone very carefully into this matter, and am satisfied that our average per mile rate, even under the present adjustment, over our entire system, is much less than over either of the other large systems. Of course we desire to

conform to your wishes in this matter, and I think we have practically done so on the tariffs as now in force. I will make no further changes in them until I can meet your Board at one of your future meetings, when I believe I can show that our present tariffs are satisfactory to your Board."

The case was set for hearing at the session of the Commission at Raleigh, November 14, 1893, when the Traffic Manager of the company appeared and submitted the tariff prepared in conformity to the views expressed by the Commission. Upon a careful examination of this tariff, the Commission finds that the rates therein set out conform to the Standard Tariff established by the Commission, and are reasonable. It appears reasonable, also, that the Commission should consent to a readjustment of rates by the petitioning company.

It is true that this readjustment allows higher charges of transportation for short distances; but it is also true that these charges were unreasonably low, as compared with the Standard Tariff. The former tariff of this company was peculiar, and was fixed by its charter at a rate of thirteen cents per ton per mile. Hence it was that its former rates, as fixed by its charter, were unreasonably low for short distances, and unreasonably high for long distances. Heretofore it claimed exemption not only from taxation but also from supervision of its rates. These exemptions were surrendered and this company placed upon an equality with other railroad companies of the State, which claimed no such exemptions as to its rights and privileges, by an act of the last General Assembly. It seemed just and reasonable, therefore, that it should be allowed to revise its rates upon a basis which had been approved by the Commission as a Standard Tariff.

Therefore, at a session of the Commission, at Raleigh, November 14, 1893, it is adjudged by the Commission that the tariff submitted by the petitioning Company be and the same is hereby approved, and that it be filed by the Clerk in the office of the Railroad Commission.

By order of the Board.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS,C. L. DICKINSON AND OTHERS, *Complainants*,

v.

WILMINGTON SEA COAST RAILWAY COMPANY.

November 28, 1893.

The plaintiffs filed this complaint October 20, 1893, alleging that they were shippers of clams from Wrightsville, N. C.; that they were receiving unjust treatment from the defendant; that defendant had provided no agent at Wrightsville, and hence they were required not only to load their clams on defendant's cars, but had to go with their shipments to Wilmington in order to get their bills of lading from the Atlantic Coast Line Company to points North; that more than ten thousand barrels of clams were shipped from Wrightsville during the year 1892; that the rates on clams from Wrightsville to Wilmington for 1892 and previous years were fifteen cents per barrel and five dollars per car-load of sixty to eighty barrels; that the defendant had advanced the rates to seven and a half cents per one hundred pounds, making the rate on a barrel twenty-two cents; that the distance from Wrightsville to Wilmington is nine miles; that this increase in rates would destroy the business of plaintiffs. The plaintiffs asked that the former rates be restored.

The complaint was served and answer was filed October 30, admitting that defendant furnished no agent at Wrightsville, but alleging there was no need for one; and explaining how the transportation was effected by the conductor on defendant's train.

Defendant further alleged that when this new industry was started, in order to encourage it, and having no data to go by, it made a rate of fifteen cents per barrel or five dollars per car-load to any one shipper; that several shippers took advantage of this by putting their shipments together and frequently overloaded the cars; that to avoid such trouble and deception defendant notified shippers last season that it would discontinue the car rate and put all shipments at the one hundred pounds rate. That shipments in barrels had been discontinued and were made now in sacks, as more convenient and less expensive; that the rates of defendant were not high but reasonable, and placed all shippers on an equal footing at fifteen cents per barrel, on a basis of four bushels to the barrel, the freight three and three-fourth cents a bushel; in sacks, two bushels to the sack, at seven cents per hundred, the freight being about four cents, a very small dif-

ference. That defendant had arranged to place an agent at Wrightsville.

The case was held for investigation, and during the month of November following, Chairman Wilson, by advice of the Commission, visited Wrightsville and made inquiry into the matter in dispute, in order to discover what might be done to promote the interests of the plaintiffs without doing injustice to the defendant.

At a session of the Commission, at Raleigh, November 20, 1893, this case was called for hearing, when Chairman Wilson reported the facts found by him. It was ordered that the following communication be addressed to the defendant company, through its President, George R. French:

"The Chairman of this Commission has just returned from Wrightsville, where he has been to investigate the complaint in regard to rate on clams. We beg to submit as a basis of settlement the following: "Quoting from your letter of October 24 (the rate named is not high and places all shippers on an equal footing at fifteen cents a barrel on a basis of four bushels to the barrel, the freight would be three and three-fourth cents a bushel in sacks, two bushels to the sack, at seven cents a hundred, the freight is about four cents, a very small difference). The Commission agrees with you that the rate per hundred will be more satisfactory than by the barrel or bag. If your statement is correct as quoted above, your offer of a four cent rate is exceedingly low, and the shipper should not complain. The Commission, however, is satisfied, from information gathered, that the rate proposed was not based upon correct data and was unjust to your company, and decides to enforce the following rates on clams: 6 cents per hundred pounds (loaded by carriers); 5½ cents per hundred pounds (loaded by shippers); the company having the option as to loading. But to relieve itself from obligations as a common carrier, due notice must be given to shippers to see to loading when it cannot be attended to by the company in time for rapid shipment."

It was further adjudged that the Clerk of the Railroad Commission issue circular accordingly, to take effect on and after December 10, 1893.

By order of the Board.

v.

WESTERN UNION TELEGRAPH COMPANY.

This was a petition addressed to the defendant company by a large number of the citizens of Morganton, bearing date October 23, 1893, asking defendant to open an office nearer the center of the business portion of said town, alleging that the business of defendant would thereby be increased more than fifty per cent.

To this defendant replied, on October 26, that it could not comply with the petition on account of the depressed condition of business.

The petition and answer were filed with the Commission, November 8, 1893, and called for hearing at its session, November 28 following.

The opinion of the Supreme Court in the case of *Albea v. The Western Union Telegraph Company*, decided at the present term, approving the case of *Mayo v. Western Union Telegraph Company*, decided at a former term, holds that the Commission is not authorized to grant the relief demanded in the petition.

Under this ruling of the Supreme Court, it appearing that the Commission has no jurisdiction of the subject-matter of the petition, the case is dismissed.

v.

THE WILMINGTON AND WELDON RAILROAD COMPANY.

November 28, 1893.

Complaint filed October 9, 1893, by S. F. Worrell and others, citizens of Pikeville, N. C., and patrons of the defendant company, complaining of the increase of rates, on account of the new freight tariff of defendant, which went into effect on October 1, 1893.

This complaint was called for hearing at a session of the Commission, at Raleigh, November 14, 1893, and continued to a subsequent session, November 28, when it was called again for final hearing.

It appeared upon investigation that the increase in rates complained of was due to the application of standard rates to the defendant company. This application of the Standard Tariff gave higher rates for short distances and lower rates for longer distances as compared with former rates. Under its original charter the defendant was allowed to charge 13 cents per ton per mile. Its maximum freight schedule was thus fixed by its charter. This gave a very low rate for short distances and a very high rate for long distances. The defendant, in fixing its freight tariff, had observed with great care this requirement of its charter, because of its anxious concern to preserve unimpaired other conditions therein which it esteemed of great value. Under these conditions the defendant claimed that it was exempt, not only from taxation of its property, but also from legislative control of its rates. This careful observance of the conditions of its charter induced the defendant to fix its rates for short distances abnormally low, while it had the license to fix them abnormally high for long distances. When, by the act of the General Assembly, the Railroad Commission fixed a tariff for the defendant company in accordance with the rates of other companies in like circumstances, the defendant availed itself of these maximum rates, which it was allowed to charge by the tariff thus fixed, only as to long distances, whenever it did not violate the maximum rates mentioned in its charter, but declined to avail itself of these rates as to short distances, lest by so doing it might be held to have violated the conditions of its charter, and to have forfeited those immunities which it believed to exist therein, and to which it attached such great value.

Hence, the defendant adopted a tariff peculiar to itself, always careful to keep within the maximum rates prescribed by the Commission, fearing to avail itself of those rates as to its short distances, while it watched over with anxious care its exemption from taxation and from legislative control. But now it has surrendered its exemption and all claim therewith. It has placed itself upon the same plane with other companies. It has asked and been allowed to readjust its rates upon the basis of the Standard Tariff of our State. Having surrendered its exemption, it had the right to ask this. To have refused its demand would have been unreasonable and unjust. It has filed its new tariff in accordance with the rates prescribed by the Standard Tariff, and this tariff has been approved by the Commission and filed among its records. It appearing that the rates complained of are in accordance with the tariff approved by the Commission, it is adjudged that the complaint be dismissed.

THE COMMISSION.

November 28, 1893.

Application filed November 16, 1893, for approval by the Commission of a tariff of special rates on cotton between Wilmington and all points on the different lines of the Atlantic Coast Line Company within North Carolina.

T. M. Emerson, Traffic Manager of the petitioner, appeared before the Commission and submitted a draft of the prepared tariff, with an explanation of the same and the reasons for its adoption.

The rates prepared appearing to be reasonable, he was asked by the Commission to prepare and submit a tariff in accordance with the views expressed.

At a session of the Commission, at Raleigh, November 28, 1893, the tariff of special rates on cotton was submitted to the Commission; and the rates appearing to be reasonable and just, it was adjudged that the same be approved and filed in the office of the Commission.

Complaint filed October 9, 1893, by W. A. Ham, complaining of the increase of rates on account of the new freight tariff of defendant, which went into effect on October 1, 1893.

This complaint was called for hearing at a session of the Commission, at Raleigh, November 14, 1893, and continued to a subsequent session, November 28, when it was again called for a final hearing.

v.

SOUTHERN EXPRESS COMPANY.

November 28, 1893.

The plaintiff filed his complaint July 28, 1893, in which he complained that the defendant had required him to prepay the rates on articles tendered for transportation; that he had been a patron of the defendant for a long time; that he had allowed his goods to accumulate for a few days on defendant's hands, awaiting a revival of trade; that when he tendered his shipments, collections for which were to enable him to receive the goods accumulated, the defendant refused to receive and forward same unless the rates were prepaid. Plaintiff alleged that this was an act of oppression on the part of the defendant.

The Commission addressed the following communication to the plaintiff:

"It does not appear that the Express Company has violated any of the provisions of the act creating the Railroad Commission, or of the

rules and regulations made by the Commission in pursuance thereof. You do not complain of any violation of the rules prescribed, or of any discrimination; if the company has imposed upon you any terms or conditions in the transportation of your goods less favorable than those required of other shippers under like circumstances, then it has by so doing violated the said act of the General Assembly, and you have a cause of action. This, however, you do not state in your letter. If such is the case, you can make a further statement, showing such discrimination against you, and the Commission will investigate your grievance, and if found to be true, redress it."

At a session of the Commission, at Raleigh, November 28, 1893, this case was called for hearing, and it appearing that the complainant did not state facts sufficient to institute a cause of action, was dismissed.

v.

WILMINGTON AND WELDON RAILROAD COMPANY.

November 28, 1893.

This was an application for special rates on coal from Wilmington to Wilson, filed October 10, 1893. The petitioner alleged that he had been shipping large quantities of coal from Wilmington to Wilson, as much as four hundred tons at a time, and asked that a special rate be given him, less than rate allowed on car-load shipments.

The petition was served on defendant company, and answer filed November 20, by T. M. Emerson, Traffic Manager, alleging that a reduction from \$1.55 per ton to \$1.45 per ton had been made by defendant since the issue of defendant's tariff, and insisting that no difference should be made in rates in favor of shipments in larger quantities than car-load shipments.

At a session of the Commission, at Raleigh, November 28, 1893, this case was called for hearing.

The act constituting the Commission provides that the Commissioners, conjointly with the railroad companies, shall have authority to make special rates for the purpose of developing all manufacturing, mining, milling and internal improvements in the State.

"The freight rates prescribed by the Commission are maximum rates, which shall not be transcended by the railroads. They may, however, carry at less than the prescribed rates," etc.

The relief asked by the petitioner does not come within the provisions of the act or the rule, just quoted, made by the Commission in pursuance thereof. He is asking for special rates or minimum rates.

As to these the Commission must act conjointly with the defendant, if at all. It must see to it that these rates, when made by a common carrier, do not unjustly discriminate against any person or locality.

The Commission cannot make special rates. It can approve of them when made in the interests of the public, and without unjust discrimination. For the reasons given, it is adjudged that the petition be dismissed.

By order of the Board.

STATE OF NORTH CAROLINA ON THE RELATION OF THE RAILROAD
COMMISSIONERS,

E. B. FAULK, *Complainant*,

v.

CAPE FEAR AND YADKIN VALLEY RAILWAY COMPANY.

November 28, 1893.

The plaintiff filed his complaint with the Commission October 20, 1893, alleging a violation by defendant of a guaranteed rate of sixty-two cents per one hundred on articles shipped to him at Pilot Mountain, N. C., from Chicago, Illinois, and filed as a part of his complaint the bill of lading furnished him by his consignor, and signed by A. P. Bigelow, the General Western Traffic Agent of the Baltimore and Ohio Railroad Company, at Chicago.

The complaint was served and answer thereto filed October 27, 1893, by W. E. Kyle, General Freight and Passenger Agent of the defendant. The defendant denied any violation of the contract of shipment as set out in the bill of lading, which was the only evidence submitted to the Commission by either party.

At a session of the Commission at Raleigh November 28, 1893, this case was called for hearing. Inspection of the bill of lading showed that the Baltimore and Ohio Railroad Company had contracted to carry the articles named from Chicago to Portsmouth, Virginia, for sixty-two cents per one hundred pounds. Inspection of the rates published

showed that the rate on the class of articles named from Portsmouth, Virginia, to Pilot Mountain, N. C., was sixty cents per one hundred. The defendant company had demanded of the plaintiffs \$1.22 per one hundred at Pilot Mountain as the freight due on the consignment. The plaintiff's allegation that the rate of sixty-two cents per one hundred had been guaranteed from Chicago to Pilot Mountain was not sustained by the proof offered.

It appearing that the defendant had demanded of the plaintiff no greater rate than the rate charged for the class of freight mentioned in the bill of lading, it is adjudged that the action be dismissed.

By order of the Board.

RAILROAD COMMISSION ACT.

[AS AMENDED]

AN ACT TO PROVIDE FOR THE GENERAL SUPERVISION OF RAILROADS, STEAMBOAT OR CANAL COMPANIES, EXPRESS AND TELEGRAPH COMPANIES DOING BUSINESS IN THE STATE OF NORTH CAROLINA.

The General Assembly of North Carolina do enact :

SECTION 1. That there shall be three Commissioners elected by the General Assembly to carry out the provisions of this act, and no member of this General Assembly shall be eligible for the position of Railroad Commissioner. The term of office of said Commissioners shall begin on the first day of April next after their election and shall continue for six years, but the terms of office of the Commissioners first elected, which shall be by the General Assembly, shall be as follows : one for two years, one for four years and one for six years. The General Assembly next preceding the expiration of the term of office of any of said Commissioners shall elect his successor. In case of vacancy the Governor shall appoint to such vacancy, and his appointee shall hold until the qualification of his successor, who shall be elected by the General Assembly that convenes next after the vacancy has taken place, and the person then chosen shall hold the office for the unexpired term. The said Commissioners, in addition to the oath to support the Constitution and laws of the United States and the Constitution and laws of the State of North Carolina, shall take, to be administered by one of the Judges of the Supreme Court, the following oath of office, which oath shall be signed by said Commissioner and attested by said Judge and recorded in the office of the Secretary of State : " I do solemnly swear (or affirm) that I am not the owner of any steamboat or of any stock or bond of any railroad or other transportation company, express or telegraph company, or the agent or attorney or employee of such company ; that I have no interest in any way in any such company, and that I will well and faithfully execute the duties of my office of Railroad Commissioner to the best of my knowledge and ability, without fear, favor or malice, or reward or hope of reward: so help me God." Said Commissioners shall not jointly, or severally, or in any way, be the holder of any stock or bond, or be the agent or attorney or employee of any such company, or have any interest in any way in such company, and shall so continue during the term of his office, and in case any Commissioner shall as distributee or legatee, or in any other way, have or become entitled to any stock or bonds or interest therein of any such company he shall at once dispose of

the same; and in case any Commissioner shall fail in this, or in case any one of them shall become disqualified to act, then it shall be the duty of the Governor to suspend him from office, and to report the fact of his suspension, together with the reason therefor, to the next General Assembly, and the question of his removal from office shall be determined by a majority of the General Assembly in joint session. In any case of suspension the Governor shall fill the vacancy, and if the General Assembly shall determine that the Commissioner suspended shall be removed, then the appointee of the Governor shall hold until his successor is elected and qualified as hereinbefore provided, but if the General Assembly shall determine that the suspended Commissioner shall not be removed from his office, then the effect shall be to reinstate him in said office. The person discharging the duties of said office shall be entitled to a salary for the time he is so engaged, but a Commissioner who is suspended shall be allowed the salary during his suspension in case he should be reinstated by the next General Assembly: *Provided*, that no person is eligible as such Commissioner who shall have been an attorney of any such company within twelve months next preceding his election to such office.

SEC. 2. That the salary of the Commissioners shall be two thousand dollars per annum, payable annually by the public Treasurer on the warrant of the Auditor, and they may employ a Clerk whose salary shall be twelve hundred dollars, which shall be paid quarterly on the warrant of the Auditor out of any funds not otherwise appropriated. The office of said Commissioners shall be kept in Raleigh, and they shall be furnished with an office, necessary furniture and stationery, which shall be paid for by the public Treasurer on the warrant of the Auditor. Any one of said Commissioners shall have power to administer an oath or affirmation in any and all matters relating to their official duties. The General Assembly shall designate the chairman of said Commissioners, and in the event of the vacancy or the absence of the chairman, the Board of Commissioners shall fill the vacancy *pro tem*. Any two Commissioners shall constitute a quorum for the transaction of business.

SEC. 3. That from and after the passage of this act if any railroad doing business in this State, or any such company organized under the laws of any other State and doing business in this State, shall charge, collect, demand or receive more than a fair and reasonable rate of toll or compensation for the transportation of passengers or freight of any description, or for the use and transportation of any railroad car upon its track, or any of the branches thereof, or upon any railroad in this State which has the right, license or permission to use, operate or control the same, shall be deemed guilty of extortion, and upon conviction thereof shall be fined not less than five hundred nor more than five thousand dollars, to be recovered as provided for in section seven of this act.

SEC. 4. That if any common carrier subject to the provisions of this act shall directly or indirectly, by any special rate, rebate, drawback

or other device, charge, demand, collect or receive from any person or persons a greater or less compensation for any service rendered or to be rendered in the transportation of passengers or property subject to the provisions of this act than it charges, demands or collects or receives from any other person or persons for doing for him or them a like and contemporaneous service in the transportation of a like kind of traffic under substantially similar circumstances and conditions, such common carrier shall be deemed guilty of unjust discrimination, which is hereby prohibited and declared to be unlawful. That it shall be unlawful for any common carrier subject to the provisions of this act to make or give any undue or unreasonable preference or advantage to any particular person, company, firm, corporation or locality, or any particular description of traffic in any respect whatsoever, or to subject any particular person, company, firm, corporation or locality, or any particular description of traffic to any undue or unreasonable prejudice or disadvantage in any respect whatsoever, and any person, persons, company or corporation violating the provisions of this section shall be, upon conviction thereof, fined not less than one thousand nor more than five thousand dollars for each and every such offence.

conjointly with such companies shall have authority to make special rates for the purpose of developing all manufacturing, mining, milling and internal improvements in the State: *Provided, further,* that nothing in this act shall prohibit railroad or steamboat companies from making special passenger rates with excursion or other parties, also rates on such freights as are necessary for the comfort of such parties, subject to the approval of the Commissioners.

Special rates for development of manufacturing, &c., improvements.

Special excursion rates, &c.

SEC. 7. That the said Commissioners are hereby authorized and required to make for each of the said companies doing business in this State, as soon as practicable, just and reasonable rates of charges for transportation of passengers and freights and cars on each of the railroads, or cause the same to be made by said companies, and the schedule containing said rates shall, in suits brought against any such company wherein is involved the charges of any such company for the transportation of any passenger or freight or cars, or unjust discrimination in relation thereto, be taken in all Courts of this State as *prima facie* evidence that the rates therein fixed are just and reasonable rates of charges for the transportation of passengers and freights and cars upon the railroads; and said Commissioners shall from time to time, and as often as circumstances may require, change and revise or cause to be changed and revised said schedules. When any schedule shall have been made or revised as aforesaid it shall be the duty of all such companies to post at all their respective stations in a conspicuous place a copy of said schedule for the information of the people. All such schedules as aforesaid shall be received and held in all such suits as *prima facie* evidence the schedules of said Commissioners, without further proof than the production of the schedules desired to be used as evidence, with a certificate of the Commissioners that the same is a true copy of the schedule prepared or approved by them for the railroad company or corporation therein named: *Provided,* that any company may appeal to the Judge of the Superior Court in term-time and thence to the Supreme Court from any determination of the Board fixing or refusing to change the rate of freight or fare; but before such company shall be allowed to exercise this right of appeal, it shall, within ten days after notice of the rates fixed by the Commissioners, file with the Board exceptions to the particulars that it objects to, and the grounds thereof, and within ten days after filing such exception the Commissioners shall hear the same, and if they shall overrule any one of said exceptions, then such corporation, if it desires to appeal to said Superior Court, shall, within ten days thereafter, give notice of appeal to said Superior Court, and the said Commissioners shall thereupon transmit to the Superior Court of some county most convenient to all parties interested in said appeal a record of their determinations of the rates of said corporation, with the exception of the company and their decisions thereon, and all the papers and evidence considered by them in making their decision. The said cause shall be placed on the civil issue docket of said Court and shall have precedence of other civil actions, and shall be tried under the same rules and regulations as are prescribed for

Commissioners to make rates of charges for transportation of passengers and freight.

The cause shall be entitled "State of North Carolina on the relation of the Railroad Commissioners against such company."
Title of cause.	
Appeal to Supreme Court.	Either party may appeal to the Supreme Court from the judgment of the Superior Court under the same rules and regulations as prescribed by law for appeal, except that the State of North Carolina, if it shall appeal, shall not be required to give an undertaking or make any deposits to secure the cost of such appeal; and such Court may advance the cause on their docket so as to give the same a speedy hearing: <i>Provided</i> , that the rates of freight and fare fixed by the Commissioners shall be and remain the established rates, and shall be so observed and regarded by such corporations, until the same shall be changed, reversed or modified by the judgment of the Superior Court, unless the railroad company shall, within fifteen days, file with said Commissioners a justified undertaking (in a sum to be fixed by said Commissioners) conditioned to pay into the Treasury of North Carolina the difference between the aggregate freights charged or received and those fixed by said Commissioners, and to make a report of freights charged or received every three months during the pendency of such appeal, and whenever the aforesaid difference in freights equal or exceed the penalty of such undertaking or undertakings said Commissioners may require another to be executed and filed with them. From the time the undertaking first mentioned is filed as aforesaid the judgment appealed from shall be vacated, but a failure for ten days to file any additional undertaking required as aforesaid by said Commissioners shall <i>eo instanti</i> revive such judgment. Out of the funds paid into said Treasury under this section shall be refunded to shippers the overpaid freight ascertained by the final determination of the appeal, on the recommendation of said Commissioners: <i>Provided</i> , application therefor is made within one year from such final determination. Said undertaking shall be payable to the State of North Carolina and sued on as other undertakings which are payable to said State: <i>And provided further</i> , that such rates fixed by the Commissioners, when approved or confirmed by the judgment of the Superior Court, shall be and remain the established rates and shall be so observed and regarded by such corporation until the same shall be changed, revised or modified by the final judgment of the Supreme Court if there shall be an appeal thereto. No Judge shall grant an injunction, restraining order or other process staying or affecting, during the pending of such appeal, the enforcement of any such determination of the said Board fixing rates or fares without requiring as a condition precedent the executing and filing with said Board a justified undertaking in the sum of not less than twenty-five thousand dollars for all companies whose road is of less length than fifty miles and fifty thousand dollars for companies whose road is over

Whenever the aggregate difference between the freights collected and those fixed by the Board shall equal or exceed the sum specified in said undertaking, the said Board shall notify the appellant or appellants that another justified undertaking in like sum and with the same conditions as aforesaid is required to be executed and filed with said Board. A failure to file with said Board the sworn statement provided for in this section or any one of them when more than one is required or asked for, or a failure to give an additional undertaking when required within fifteen days from notice so to do, shall vacate and render null and void any restraining order, injunction or other process to stay the enforcement of any determination of said Board as to schedules of rates, etc. When any of the conditions of such undertaking or undertakings are broken the said undertaking or undertakings may be sued on and enforced in the name of the State of North Carolina on the relation of the Attorney General by summons returnable to the Superior Court of any county in the State at a regular term thereof. In cases where the sworn statements herein required to be made are not made, the whole penalty of the undertaking or undertakings shall be enforced and paid into the State Treasury. The sums paid into the Treasury under the provisions of this section shall be used to reimburse the shippers of freights for the excess of freights paid over what should have been paid, such reimbursements to be made on recommendation of said Board: *Provided*, application therefor is made within one year after the determination of the appeal in which the undertaking or undertakings were given. The recovery in each undertaking shall be applied as aforesaid to such excess of freights as is paid during the period covered by such undertaking. The Solicitor of the district shall prosecute the action in his Court on behalf of the State, and shall be allowed such fees, to be taxed in the bill of costs, as the Court may order; and the Attorney General shall prosecute on appeal to the Supreme Court on behalf of the State and shall be allowed such fees, to be taxed in the bill of costs, as the Court shall allow. Each railroad corporation or other company as hereinbefore named shall, within thirty days after the organization of the Commissioners, file with said Commissioners a schedule of their rates of charges for freight and passenger tariffs, and the said Commissioners are authorized and required to publish the said rates or a summary thereof in some convenient form for the information of the public and quarterly thereafter the changes made in said schedules if they deem it advisable.

SEC. 8. That it shall be the duty of said Commissioners in the discharge of their duties under this act to investigate the books and papers of all the railroad companies doing business in the State, to ascertain if the rules and regulations aforesaid have been complied with and to make personal visitations of railroad offices, stations and other places of business for the purposes of examination and to make rules and regulations concerning such examinations, which rules and regulations shall be observed and obeyed as other rules and regulations. Said Commissioners shall have full power and authority to examine all officers, agents and employees of said railroad companies and other persons, under oath or otherwise, in order to procure the necessary information to make just and reasonable rates of freight and passenger tariffs and to ascertain if such rules and regulations are observed or violated, and to make necessary and proper rules and regulations concerning such examinations, and which rules and regulations herein provided for shall be obeyed and enforced as all other rules and regulations provided for in this act.

SEC. 9. That all contracts and agreements between railroad companies doing business in this State as to rates of freight and passenger tariffs shall be submitted to said Commissioners for inspection and correction that it may be seen whether or not they are a violation of law or of the provisions of this act, or of the rules and regulations of said Commissioners; and all arrangements and agreements whatever as to the division of earnings of any kind by competing railroad companies doing business in this State shall be submitted to said Commissioners for inspection and approval in so far as they affect rules and regulations made by said Commissioners to secure to all persons doing business with said companies just and reasonable rates of freight and passenger tariffs, and said Commissioners may make such rules and regulations as to such contracts and agreements as may then be deemed necessary and proper, and any such agreements not approved by such Commissioners, or by virtue of which rates shall be charged exceeding the rates fixed for freight and passengers, shall be deemed, held and taken to be violations of this act and shall be illegal and void.

SEC. 10. That if any railroad company doing business in this State by its agents or employees shall be guilty of a violation of the rules and regulations provided and prescribed by said Commissioners, and if, after due notice of such violation, given to the principal officer thereof, if residing in the State, and if not, to the manager, or superintendent, or secretary, or treasurer, if residing in the State, and if not, then to any local agent thereof, ample and full recompense for the wrong or injury done thereby to any person or corporation as may be directed by said Commissioners shall not be made within thirty days from the time of such notice such company shall incur a penalty for each offence of not less than fifty dollars nor more than five thousand dollars, to be fixed by the judge of the court in which such action shall be tried. An action for the recovery of such penalties shall lie in any county in the State where such viola-

tion has occurred or wrong has been perpetrated, and shall be in the name of the State of North Carolina. The Commissioners shall institute such action through the Attorney General or Solicitor of the judicial district in which violation has occurred, whose fees shall be fixed by the judge of the court in which said action shall be determined, and said fees shall be taxed in the bill of costs.

Commissioners to institute action.

Fees of Attorney General or Solicitor.

SEC. 11. That if any railroad company doing business in this State shall, in violation of any rule or regulation provided by the Commissioners aforesaid, inflict any wrong or injury on any person, such person shall have a right of action and recovery for such wrong or injury in the county where the same was done or where the plaintiff resides, in any court having jurisdiction thereof, and the damages to be recovered shall be the same as an action between individuals, except that in case of wilful violation of law such railroad companies shall be liable to exemplary damages: *Provided*, that all suits under this act shall be brought within twelve months after the commission of the alleged wrong or injury: *Provided further*, that if an individual is killed the time during which there is no administration shall not be counted: *Provided*, letters of administration are taken out within one year from the killing.

Action by person injured by violation by railroad company of rules provided by Commissioners.

Exemplary damages. Suits to be brought within twelve months. If person killed, time when no administration not to be counted, if letters of administration taken out in one year.

SEC. 12. That in all cases under the provisions of this act the rules of evidence shall be the same as in civil actions, except as provided by this act. All fines recovered under the provisions of this act shall be paid into the State Treasury to be used for such purposes as the General Assembly may provide. The remedies hereby given the persons injured shall be regarded as cumulative to the remedies now given or may be given by law against railroad corporations, and this act shall not be construed as repealing any statute giving such remedies.

Rules of evidence.

Fines payable into State Treasury.

Remedies cumulative. No statutes giving remedies against railroads repealed.

SEC. 13. That the terms "such companies" or "railroad company" contained in this act shall be deemed and taken to mean all corporations, companies or individuals now owning or operating, or which may hereafter own or operate, any railroad, steamboat, canal, express business or telegraph and telephone line, in whole or in part in this State, and the provisions of this act shall apply as far as applicable to all persons, firms and companies, and to all associations or persons, whether incorporated or otherwise, that shall do business as common carriers in this State (street railways excepted) the same as railroad corporations hereinbefore mentioned.

Meaning of "such companies" and "railroad company."

That it shall be the duty of the Commissioners herein provided for to make to the Governor annual reports of the transactions of their office, and to recommend, from time to time, such legislation as they may deem advisable under the provisions of this act, and the Governor shall have one thousand copies of such report printed for distribution.
Commissioners empowered to subpoena witnesses.	SEC. 16. That said Railroad Commissioners in making any examination for the purpose of obtaining information pursuant to this act shall have power to issue subpoenas for the attendance of witnesses by such rules as they may prescribe; and said witness shall receive for such attendance two dollars per day and five cents per mile traveled by the nearest practicable route in going to and returning from the place of meeting of said Commissioners, to be ordered paid by the Governor upon presentation of subpoenas sworn to by the witnesses, as to the number of days served and miles traveled, before the Clerk of said Commissioners, who is hereby authorized to administer oaths.
Witness fees.	In case any person shall wilfully fail or refuse to obey such subpoenas, the Commissioners shall have power to issue an attachment for such witness and compel him to attend before the Commissioners and give his testimony upon such matters as shall be lawfully required by such Commissioners; and said Commissioners shall have power to punish, for contempt, as in other cases of refusal to obey the process and order of any court. The Clerk of said Commissioners may serve any notice issued by them, and his return thereof shall be evidence of said service; and it shall be the duty of the Sheriffs in the State to serve any process, subpoenas and notices issued by said Commissioners, and they shall be entitled therefor to the same fees as are prescribed, or may be prescribed, for serving summons issuing from the Superior Court, and they shall be liable to the same fines and penalties for failure to discharge their duties on that behalf.
How paid.	SEC. 17. That every officer, agent or employee of any railroad company who shall wilfully neglect or refuse to make and furnish any report required by the Commissioners for the purpose of this act, or who shall wilfully or unlawfully hinder, delay or obstruct said Commissioners in the discharge of the duties hereby imposed upon them, shall forfeit and pay a sum not less than one hundred and not more than five thousand dollars for each offence, to be recovered in an action in the name of the State. A delay of ten days to make and furnish such report shall raise the presumption that the same was wilful.

ASSESSMENT ACT—CHAPTER 297, LAWS 1893.

Railroad Commissioners to constitute Board of Appraisers for railroad, telegraph, &c., companies.

SECTION 42. The Commissioners elected from time to time under the authority of "An act to provide for the general supervision of railroads, steamboat and canal companies, express and telegraph companies doing business in the State of North Carolina," shall constitute a board of appraisers and assessors for railroad, telegraph, canal and steamboat companies.

President or other officer to make returns to board.

SEC. 43. The president, secretary, superintendent or other principal accounting officer within this State of every telegraph and railroad company, whether incorporated by any law of this State or not,

What property to be listed.

shall return to said Commissioners for assessment and taxation, verified by the oath or affirmation of the officer making the return, all the following described property belonging to such corporation on the first day of June of each year within this State, viz., the number of miles of such telegraph and railroad lines in each county in this State and the total number of miles in the State, including the road-bed, right-of-way and superstructures thereon, main and side tracks, depot buildings and depot grounds, section and tool houses, rolling stock and personal property necessary for the construction, repairs or successful operation of such telegraph and railroad lines, including also all Pullman or sleeping-cars owned by them or operated over their lines: *Provided, however,* that all machine and repair shops, general office buildings, storehouses, and also all real and personal property outside of said right-of-way and depot grounds as aforesaid, of and belonging to any such railroad and telegraph companies, shall be listed for purposes of taxation by the principal officers or agents of such companies with the list-takers of the county where said real or personal property may be situated, in the manner provided by law for the listing and valuation of real and personal property.

What property to be listed with county list-takers.

It shall be the duty of the list-takers, if required so to do by the said Commissioners, to certify and send to the Commissioners on or before the third Monday in June in each year a statement giving the description of the property mentioned in the foregoing proviso, and showing the assessed valuation thereof. The list-taker shall also, on or before the same day, send to the Auditor of State a like certificate of the assessed valuation and character of said property. The list-takers and assessors shall also certify to the Commissioners the local rate of taxation for county purposes as soon as the same shall be determined, and such other information obtained in the course of

the performance of the duties of their office as the said Commissioners shall require of them, and the mayor of each city or town shall cause to be sent to the said Commissioners the local rate of taxation for municipal purposes. Mayors to send rate of municipal taxation.

SEC. 44. The movable property belonging to a railroad company shall be denominated for the purpose of taxation, "rolling stock." Rolling stock, when and how listed. Every person, company or corporation owning, constructing or operating a railroad in this State shall, in the month of June annually, return a list or schedule to the Commissioners, which shall contain a correct detailed inventory of all the rolling stock belonging to such company, and which shall distinctly set forth the number of locomotives of all classes, passenger cars of all classes, sleeping and dining cars, horse cars, cattle cars, coal cars, platform cars, wrecking cars, pay cars, hand cars and all other kinds of cars, and the value thereof. And a statement or schedule as follows:

(1). The amount of capital stock authorized and the number of shares into which such capital is divided. Schedule.

(2). The amount of capital stock paid up.

(3). The market value, or if no market value, then the actual value of the shares of stock.

(4). The length of line operated in each county and the total in the State.

(5). The total assessed valuation of all its tangible property in this State.

(6). And all the information heretofore required to be annually reported by section nineteen hundred and fifty-nine of The Code. Such schedules shall be made in conformity to such instructions and forms as may be prescribed by the Commissioners and with reference to amounts and values on the first day of June of the year for which the return is made. Board to prescribe instructions and forms.

SEC. 45. The said Commissioners shall first determine the value of each railroad, and the aggregate value thus determined shall be apportioned in the same proportion that the length of such road in each county bears to the entire length thereof; and the Commissioners shall certify to the chairman of county commissioners and the mayor of each city or incorporated town the amount apportioned to his county, city or town, and the Commissioners shall make and forward a like certificate, together with all the reports of the various railroad officers or copies thereof, and other papers and evidence which formed the basis of the valuation, to the Auditor of the State. Method of valuation by board. All taxes due the State from any railroad company, except the tax imposed for school purposes, shall be paid by the treasurer of each company directly to the State Treasurer within thirty days after the first day of July of each year, and upon failure to pay to the State Treasurer as aforesaid he shall institute an action to enforce the same in the county of Wake or any county in which such railroad is located. Duty of board. The board of county commissioners of each county through which said railroad passes shall assess against the same only the tax imposed by the State for school purposes and those imposed for county purposes and pensions. Taxes due state, how paid. When treasurer to institute action. What taxes to be assessed by county commissioners.

Railroad partly in this State and partly in another, how assessed.

SEC. 46. When any railroad has part of its road in this State and part thereof in any other State, the Commissioners shall ascertain the value of railroad track, rolling stock and shares of capital stock of such company, and divide it in the proportion the length of such road in this State bears to the whole length of such road, and determine the value of such railroad track, rolling stock and shares of capital stock in this State accordingly.

Railroad claiming exemption from taxation to make return.

SEC. 47. Any railroad company claiming exemption from taxation under this act by reason of any contract with the State shall, together with and in addition to the return required by the last section, make a further return specifying the act or acts of the General Assembly by which such contract is claimed to have been created, and also specifying what portion of the property of said railroad company is claimed to be exempt from taxation under this act, and the particulars as to character, location and value of property, if any, admitted to be liable under this act. Such returns shall be in no manner conclusive as to any of the facts therein stated, but said Commissioners shall investigate and determine whether any, and if any, what portion of the property of such company is beyond the power of the State to tax under this act. The residue of said property, after deduction of that which is exempt, shall be taxed pursuant to the provisions of this act. After the first Monday in July the Commissioners shall give a hearing to all companies interested touching the valuation and assessment of their property. The Commissioners may, if they see fit, require all arguments and communications to be presented in writing.

What return to show.

Board to investigate, &c.

Taxation of residue.

Board to give hearing, &c.

Leased roads, how assessed.

SEC. 48. If the property of any railroad company be leased or operated by any other corporation, foreign or domestic, the property of the lessor or company whose property is operated shall be subject to taxation in the manner hereinbefore directed, and if the lessee or operating company, being a foreign corporation, be the owner or possessor of any property in this State other than that which it derives from the lessor or company whose property is operated, it shall be assessed in respect of such property in like manner as any domestic railroad company.

Board empowered to summon witnesses, &c.

SEC. 49. The Commissioners shall have power to summon and examine witnesses and require that books and papers shall be presented to them for the purpose of obtaining such information as may be necessary to aid in determining the valuation of any railroad property.

Refusal of officer to attend, &c., a misdemeanor.

Any president, secretary, receiver or accounting officer, servant or agent of any railroad or steamboat company having any portion of its property or roadway in this State who shall refuse to attend before the Commissioners when required to do so, or refuse to submit to the inspection of said Commissioners any books or papers of such railroad company in his possession, custody or control, or shall refuse to answer such questions as may be put to him by said Commissioners, or order touching the business, property, moneys and credits and the value thereof of said railroad company, shall be guilty of a misdemeanor, and on conviction thereof before any court of competent jurisdiction shall be confined in the jail of the county not exceeding

Penalty.

thirty days and be fined in any sum not exceeding five hundred dollars and costs; and any president, secretary, receiver, accounting officer, servant or agent aforesaid so refusing as aforesaid shall be deemed guilty of contempt of such Commissioners and may be confined by order of said Commissioners in the jail of the proper county until he shall comply with such order and pay the cost of his imprisonment. Proceeding for contempt.

SEC. 50. The value of the shares of capital stock of any canal company in this State over and above the value of its real and personal property shall be assessed as above provided for railroads, and the real and personal property as other property in this State is assessed. Stock in canal company, how assessed.

In case any officer fails to return the property as provided in this section, the Commissioners shall ascertain the length of such property in this State and shall assess the same in proportion to length at the highest rate at which property of that kind is assessed by them. On failure of officer to return property, board to assess.

AN ACT TO MAKE THE RAILROAD COMMISSION A COURT OF RECORD.

The General Assembly of North Carolina do enact :

SECTION 1. That the Railroad Commissioners elected at this General Assembly, and successors in office, be and they are hereby created and constituted a Court of Record inferior to the Supreme Court, and shall be known as the Board of Railroad Commissioners, and as such shall have all the powers and jurisdiction of a Court of general jurisdiction as to all subjects embraced in the act creating such Railroad Commission heretofore passed, and shall have a common seal.

SEC. 2. This act shall be in force from and after the first day of April, 1891.

AN ACT TO AMEND CHAPTER FORTY-NINE OF THE CODE.

The General Assembly of North Carolina do enact :

SECTION 1. That the Board of Railroad Commissioners of North Carolina are hereby empowered, whenever it shall appear wise and proper so to do, to authorize, allow and permit any railroad company operating in this State to run one or more fast mail trains over its road which shall only stop at such stations on the line of the road as may be designated by the company: *Provided*, that in addition to such fast mail train said railroad shall run at least one passenger train in each direction over its road on every day except Sunday, which shall stop at every station on the road at which passengers may wish to be taken up or put off: *Provided*, nothing in this act shall be construed to authorize any company, persons or corporations to run any trains over the Petersburg Railroad between Weldon and the State Railroad Commissioners authorized to allow railroad companies to run fast mail trains. Proviso.

SEC. 2. That this act shall be in force from and after its ratification. Ratified the 9th day of February, A. D. 1893.

AN ACT TO AMEND CHAPTER 326, LAWS 1891.

The General Assembly of North Carolina do enact :

Chapter 326, laws 1891, amended.

Railroad Commissioners to assess value of railroad stock, rolling stock, &c.

SECTION 1. That chapter three hundred and twenty-six, section forty-seven, laws of one thousand eight hundred and ninety-one, be and the same is hereby amended by striking out all of said section down to and including the words "as thus determined" in line ten and inserting in lieu thereof the following: "The said Commissioners shall determine the value of railroad stock as defined in section forty-five and the value of the rolling stock, ascertaining such value from the earnings as compared with the operating expenses and taking into consideration the value of the franchise as well as other conditions proper to be considered in arriving at the true value of the property as in the case of private property and the aggregate value as thus determined."

Sec. 52 amended. Commissioners to assess property of canal and steamboat companies.

SEC. 2. That section fifty-two of said act be and the same is hereby amended by striking out all of said section down to and including the word "assessed" in line five and inserting in lieu thereof the following: "The property of all canal and steamboat companies shall be assessed for taxation as above provided for railroads."

SEC. 3. That this act shall be in force from and after its ratification. Ratified the 14th day of February, A. D. 1893.

AN ACT TO AMEND SECTION ONE THOUSAND NINE HUNDRED AND FIFTY-NINE OF THE CODE, REQUIRING RAILROAD COMPANIES TO RENDER ANNUAL REPORTS TO THE GOVERNOR OF THE OPERATIONS FOR THE YEAR.

The General Assembly of North Carolina do enact :

Code, section 1959, amended.

Annual reports of railroad companies may be made to Railroad Commissioners.

SECTION 1. That section one thousand nine hundred and fifty-nine of The Code be and the same is hereby amended by adding the following at the end of said section: "*Provided*, that if the report herein mentioned shall be made to the Board of Railroad Commissioners instead of to the Governor, it shall be deemed a sufficient compliance with the requirements of this section."

SEC. 2. That this act shall be in force from and after its ratification. Ratified the 14th day of February, A. D. 1893.

AN ACT IN REGARD TO THE DELIVERY OF FREIGHT.

The General Assembly of North Carolina do enact :

SECTION 1. That whenever any goods, articles or freight of any kind shall be received by any common carrier in this State to be delivered to any consignee in this State, and a portion of the same shall not have been received at the place of destination, it shall not be lawful for the carrier to demand any part of the charges for freight or transportation due for such portion of the shipment as shall not have reached the place of destination. The carrier shall be required to deliver to the consignee such portion of the consignment as shall have been received upon the payment or tender of the freight charges due upon such portion. But nothing in this act shall be construed as interfering with or depriving a consignor, or other person having authority, to his rights of stoppage *in transitu*.

On partial delivery of freight to consignee by common carrier, not lawful to demand freight charges on undelivered portion, &c.

Stoppage *in transitu*.

SEC. 2. The Railroad Commissioners shall enforce the enforcement of the provisions of this act by appropriate regulations, and this act shall be in force from and after its ratification.

Railroad Commissioners to enforce act.

Ratified the 6th day of March, A. D. 1893.
